Fredric March Has Lead In New Lyric Picture

One of the most provocative and exciting pictures to reach the screen within recent years is opening at the Lyric theatre under the title "Trade Winds" and starring Fredric March and Joan Bennett. The film is a fast-moving, romantic melodrania, smartly fashioned to contain all the elements of fine entertainment.

Red Skelton is funny when he acts like a man but when he illustrates what a girl looks like when she

rises bright and early in the morning, you'll laugh until your sides about split. Don't miss seeing "Bathing Beauty" at the Ohio

Michael O'Shea heads the cast "Man From Frisco" currently featured at the Quilna theatre and noted for its extravagance in the production. Giant scaffolds and cranes are pretty hard to find these days but they were located and the film was made.

William Bendix plays the part of the chief stoker on a freighter and that is how he happened to be referred to as the "Hairy Ape." Pretty Susan Hayward tacked this name on him but of course it was not intentional.

Three young stars who are rapidly rising to fame are Van Johnson, Gloria DeHaven and June Alyson, all featured in "Two Girls and A Sailor" now showing at the State-theatre.

QUILNA

The thrilling million dollar production, "Man From Frisco." starring Michael O'Shea and Anne Shirley, is now playing at the Quilna theatre. The much talked of picture which is the dramatic story of the conflict between the traditional methods of ship-bullding and the pre-fabri- FORMER GUARD vessels, was directed by Robert megaphonists, under associate producer Albert J. Cohen, Gene Lockhart bas an important role in the picture which has a stellar supporting cast.
