little nephew who was born a cripple. Despite excellent care treatment at Bradley Memorial Hospital, Washing-ton Orthopedic School, and several Madison doctors, nothing seemed to help. However, one day my brother met Dr. Herman Wirka (who incidentally is an old neighbor of mine) who suggested that the little fellow be brought to him for an examination This was done and Doc decided that a series of operations would enable him to walk. These operations were performed and miracle of miracles, he's walking today! The day that this mess is over here, and I can come home, one of my fondest dreams will be realized, that the little guy will walk out to meet his un-cle Hank. This past summer he spent at the Ada Lorenz Camp and it did wonders for him. Do you see now why I

have an interest in this grand work you are doing? Hoping that this small contribution will help toward attaining your goal, I remain.
