am a Republican who voted for you in your two campaigns for prosecutor and the first two of your three campaigns for ongress. I, therefore, feel hat, being partly responsible for your becoming a public servani, I am entitled to ask you a few questions as to your conduct as a public servant. During your three terms as Congressman, you have collected from the United States Ticanury almost \$60,000.00. What have you given in return? You are asking Fourth District

voters to return you to Congress for a fourth term. On what grounds are you asking this vote of confidence? On YOUR Fourth Term Issue? Or, on your voting record on measures designed to sid your country prior to and after its entry into this war? Let us take a short look at that
