## 3-5 of Vernon Farms Surveyed for Erosion

VIROQUA—Nearly three-fifths of Vernon county farms, consti-tuting 262, 285 acres, have been surveyed for erosion control measures. On 792 of these farms, complete plans for soil conserva-tion have been adopted with the assistance of the Vernon county conservation office.

from abroad. The Filipinos also raise a great

deal of sugar cane. The usual yearly crop yields more than a million tons of sugar, a great part of which is exported.

Another important product of

the Philippines is Manila hemp, This is taken from plants which are related to those which produce bananas. Very strong rope is made from the fibers of Manila hemp.

In one test a rope an inch thick, made from these fibers, held a

weight of two and one-fourth tons Corn, rubber, coconuts and ba

nanas are among the other crops

The Philippines are called existence for vast ages. On their "mainly volcanic." This means surface we find rich soil, with vast that for the most part they were forests and other plant life. built up by volcances. The vol-cances exploded under the sur-face of the water, and slowly the heaps of lava and ashes grew until properties and other plant file. Rice is the greatest crop raised by the Filipinos, but this food is not exported. In normal times, the people cat all the rice they raise, built up by volcanoes. The voland even buy rice which is sent in
