

LIMA FANS WAY AHEAD IN WEEK-END THEATRE BILLINGS

MOVIES SCHEDULED HERE ARE LATEST OFFERED IN LISTINGS

That old adage—"there's just as green grass in your own backyard as there is in the next fellow's"—still holds true—even with movies. Limaites are inclined to believe sometimes that the larger cities such as Chicago, New York, Los Angeles and others get the latest movies out of Hollywood while Lima takes a back seat. Only a glance at one of the newspapers from either of these places will show that in some cases, the fair city of Lima is way ahead.

You who will want to see the movie, "Woman in the Window" with Edward G. Robinson and Joan Bennett, currently showing at the Ohio theatre, need not be disappointed if the usher does not seat you during the last minutes of the film. It's all for your own good because if he should do this, the whole movie would prove to be a disappointment—for in those last five minutes there lies the solution to one of the most suspenseful movie-mysteries ever filmed.

No picture in recent years had had such a phenomenal effect on so phenomenal a number of careers as has "A Tree Grows in Brooklyn" now showing at the Quilna theatre. Willa Kazan, the brilliant young Broadway stage director, resisted all Hollywood offers until he was sought to direct the film version of the heart-warming novel. Now his future is in Hollywood rather than in New York.

The eternal triangle is found again in the picture "Murder My Sweet" which stars Dick Powell, Anne Shirley and Claire Trevor and is opening Saturday at the Sigma theatre. Also this triangle comes under altogether different circumstances than the usual, still it's two women in love with the same man that brings in the difficulties. Sharing the billing is the picture "Nothing But Trouble," and judging from the response it brought from the movie fans in larger cities, it must be good.

We've all heard a lot about

SQUIRRELS WAKE UP MAN FOR SNACK AT MIDNIGHT

HILLSDALE, Mich., Feb. 10—(UP)—Two fox squirrels think nothing of waking up Charles Wakeman every midnight for a hickory nut snack, and this has been going on for some time, according to Wakeman.

Wakeman says the squirrels, who scratch at his window every night until he lets them in, evidently use his room as some sort of a restaurant to stop in on their way home from some "nutty" night club frequented by other squirrels. They live in a nest outside Wakeman's window.

Wounded Service Men Need Help

WASHINGTON, Mar. 8—(UP)—Sick and wounded soldiers from overseas are now arriving in this country at the rate of 50 every hour, the War department said today.

Lima News March 8th

WACS Needed For Army Hospitals

There is a pressing backlog of requisitions, at the moment, for WAC Medical and Surgical Technicians. Any woman, aged 20 to 49, inclusive, may apply. Previous hospital training is not necessary. If you can qualify, the Army will train you.

WAC Medical Technicians under professional supervision of Army doctors and nurses aid in the care of wounded soldiers. They help with blood transfusions, serve as ward masters, deliver meals to wounded soldiers and feed the helpless ones, and keep those essential records which are important to their present progress and their post-war protection.

WAC Surgical Technicians under professional supervision specialize in the technique of assisting doctors and nurses don surgical gowns and gloves, attend to the care, repair and sterilization of operating instruments, and assist in the pre- and post-operative care of patients.

WACS are also doing marvelous work as medical stenographers. An Army doctor using a WAC in this capacity can take care of many more patients, for he does not need to retain mental notes or take time to write up a case before seeing another.

WACS Will Be Recruited for Hospital Units

The Army's goal is a unit of 100 WACS to every thousand beds in Army General Hospitals in this country.

Each unit will be made up of several platoons. Each platoon will number fifteen WACS. Many women will want to interest their friends in making up platoons—doubtless many communities will set out to recruit a whole unit.

Although the primary need is for Medical and Surgical Technicians, any woman with clerical aptitude should also apply. For each WAC unit will need several women with clerical ability.

General of the Army George C. Marshall, on January 7, wrote the Governor of each State as follows: "The care of the increasing number of casualties arriving in the United States, together with an acute shortage in nurses and hospital personnel generally, necessitates urgent measures being taken to recruit and rapidly train women for service in Army hospitals.

"We urgently need WACS for our sixty General Hospitals.

"Your leadership in recruiting women for such platoons will be a great service to the Army. These recruits will be trained for assignment to particular named Army General Hospitals, including those located in your State."
