JAPAN FIGHTS FOR ASIA by John Andrew Goette-John Goette, who has lived in the Far East for the past 20 years, was for 5 years the accredited representative of the International News Service with the Japanese Army in China. He tells the inside story of Japan's attempt to conquer Asia-of the military and political leaders who planned the conquest and who run the conquered provinces, of the soldiers and business men who take their orders, of the Japanese technique in war and occupation, of the spirit that animates their

dreams of empire. In this first hand account we see the actual details of the Japanese plan for ruling Asia. John Goette's was one of the voices unheeded before Pearl Harbor. It will be wisdom to listen to him now.

WASHINGTON, Mar. 16-(UP) -The American people contributed more money to political war chests in the 1944 national elections than in any other campaign in history. The senate campaign expendi-

tures committee reported today that 1944 contributions to various political organizations totaled at least \$25,298,384, of which at least \$23,021,878 was actually spent. It emphasized that additional millions were spent by county and local organizations which did not file reports.

The previous high in contributions was in 1940 when they reached \$24,174,224. The 1936 campaign, however, remains the record year for actual expenditures with a total of \$23,973,329.
