I'M GOING TO THE MOVIES TODAY

HENRY /

# in State Totals 30 Million Pounds

EDGERTON -(U.R)- Wisconnearly 30,000,000 pounds worth In a human brain there is both more than \$7,500,000. But none "gray matter" and "white matter." of it was expected to ease the Much, but not all, of the gray matter than \$1,000 to the gray matter. cigaret shortage.

The bulk of the Badger crop brain. There is more white matter was ready for conversion as "chawin' tobaccer" or binding for

cigars. Last years tobacco was grown is known as the spinal colu. This is a mass of nerve fibers making a runk topped the list in county opped the list in county.

Nerves branch from the spinal county topped the list in county. acreage with Vernon second. The cord to reach the heart, stomach brown leaves grown in Vernon and other organs. At the top the cents a pound growers received 25 cents.

Five tobacco concerns operate warehouses in Edgetton, where the leaves are conditioned, sortained and graded.

learned that the account about 250 feet a second.

Much of the work of the nerves is done without any special orders from the brain. The heart, for expense, is connected with the nerves is connected with the nerves is connected without

## Soldiers to See Film 'Daginiah'

"Daginiah" will be shown on the screen at the Jewish movie night program in chapel No. 202, Truax Field, Thursday at 7:30 p. m. Rabbi Theodore H. Gordon of Hillel Foundation has also consented to show the motion of the body, and they are tough enough. Inside the body, however the nerves are "delicate." The backbone guards the spinal cord, and the brain has a covering of bone. consented to show the motion pictures he took when he was in Palestine. Refreshments will be scrapbook.)

# Uncle Ray's Corner

Yesterday we were speaking about the nerves and how they tell us the news of what is happening around the body. Because we have lilustrated leaflet on the "Sevent

nerves, we are able to see, hear, wonders of the World" send a to Uncle Ray in care taste, smell and feel. Nerves also self-addressed stamped envelope newspaper. close to fire or something else which may hurt us.

The system of nerves in a human being has been compared to a telephone system. Many of the nerves serve as wires, or "lines," over which messages can pass. In some parts of the body, nerves, come together, and the centers of nerves are something like tele-phone switchboards. The greatest center of all is the brain.

A single nerve cell is so small

that it can be seen only with the help of a miscrope. In the brain, however, there are many millions of nerve cells together. The aversin tobacco warehouses were loaded today with a 1944 crop of about three pounds.

than gray matter.
Another important nerve center

and other northern counties was spinal cord is pointed to the brain. Claimed to be a bit thinner and How fast does a mesage travel sold at higher prices. OPA ceilings for northern binder were 30 cents a pound while southern growers received 25 cents.

How fast does a mesage travel along a nerve pathway? Tests have been made to find the answer to that question, and it has been learned that the average speed is

ous system, and it beats without our telling it to do so.
