

Tallulah Bankhead Takes Comedy Role

In a delightfully scandalous story of a glamorous queen and her handsome lieutenant, Tallulah Bankhead has been brought to the screen in her first comedy role. Miss Bankhead plays the part of Catherine the Great who felt alone on her throne and needed men to surround her. "A Royal Scandal" which is currently playing at the Quilna theatre has been heralded by Hollywood preview acclaim as Lubitsch's best.

As many girls as can be crowded into one Hollywood movie—and all beautiful, too—are on hand for "Bring On the Girls," a star-studded musical which makes its debut Friday at the Ohio theatre. The film has Veronica Lake, Marjorie Reynolds, Eddie Bracken and Sonny Tufts heading its "wow" of a cast.

If it's fun and dramatic suspense you've been seeking in a single picture, your dish is "Between Two Women," the new attraction starring Van Johnson and opening Saturday at the Sigma theatre. It's the exciting and absorbing story of a young doctor who is catapulted into the strange case of a seemingly healthy lovely young singer who collapses in her dressing room after her evening performance.

The boldest love story ever to be told can now be seen in picture form at the State theatre where "Guest in the House," starring Anne Baxter is currently playing. Sparkling comedy situations blending with gay music furnished by three of the nation's most popular name bands, and a notable cast of glamorous Hollywood players, comprise the entertaining elements of one of the newest comedy musicals out of Hollywood "Hat Check Honey" which will open Sunday at the Lyric theatre.

Radio has brought air-ground cooperation to its highest peak of efficiency during the European campaign. Forward infantry troops can direct waiting fighter-bombers onto targets almost instantly, by radio communications.

The fast-moving film offers some excellent dancing numbers and a set of new hit tunes by Jimmy McHugh and Harold Adamson, two of the nation's top tunesmiths.

SCIENTIST TRAINING DROPS CINCINNATI, May 11—(AP)—Because of the war, American universities are training too few men as scientists to maintain the necessary volume of pure and applied research in educational institutions and industrial laboratories, Dr. Edward A. Henry, University of Cincinnati director of libraries, reported today. Dr. Henry said there have been declines from 1911 figures in 46 of the 51 subject fields.
