Boettel: A Plan for Controlling
the Wisconsin State Journal

News comes high in China, according to Maj. Joseph J. Peot, who has sent his wife and family here on an eight-page, tabloid-size paper published in Chungking for which he paid \$200 in Chinese currency.

That's only 20 cents American—but, even so, the paper cost him four times as much as an edition of The Wisconsin State Journal.

The newspaper, he sent is printed in English on rough, brown paper made from rice, and is published in Chungking by Shanghai Evening Post and Mercury, Inc., an American company.

Published price of the paper is \$40 a copy, but, since too little paper is available to print sufficient copies to meet the demand, paying \$200 for an issue is not unusual.

An article on the black market and exchange of Chinese for American dollars at the rate of 800 to 1 said the average Chungking citizen would have to keep track of things.

The election will bring about state control of such public industries as coal mines, power utilities, and transportation.

Another Mohammedan rule is that the flesh of the pig must never be eaten.

Only a few cities in Java have more than 100,000 population. Largest of all is Batavia, the capital, which is the home of close to half a million persons.

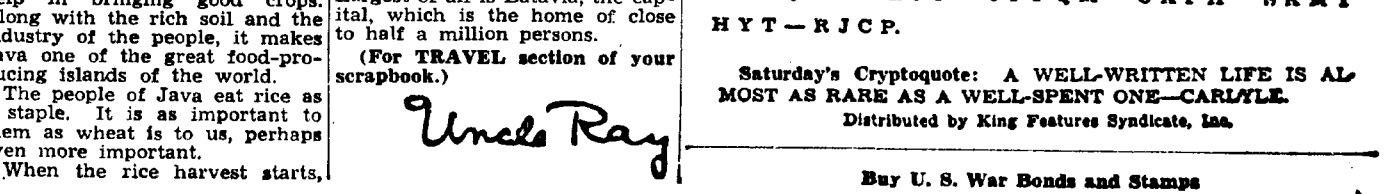

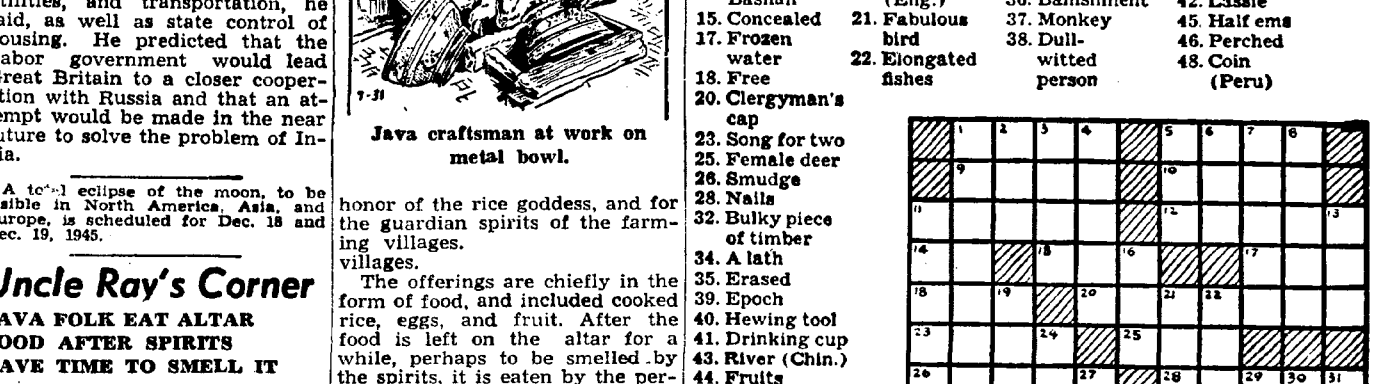

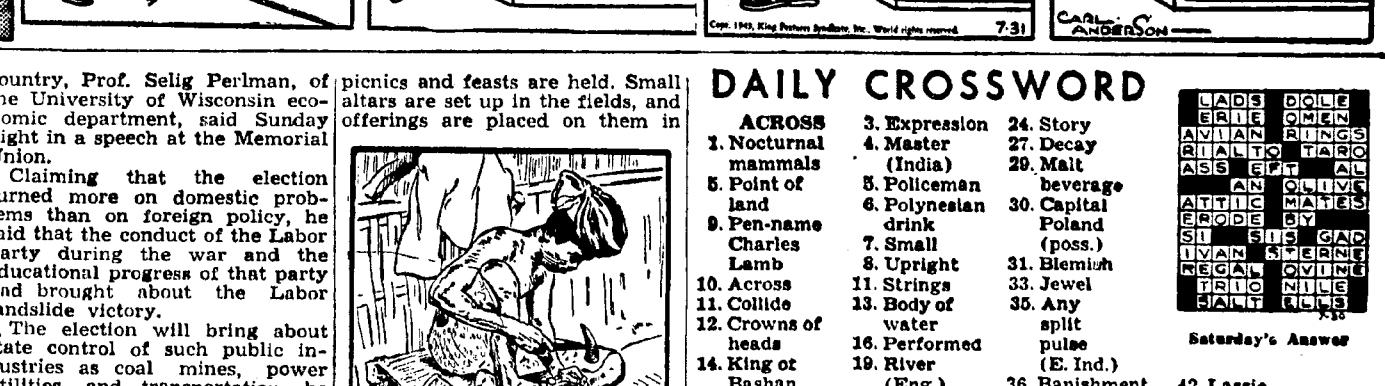

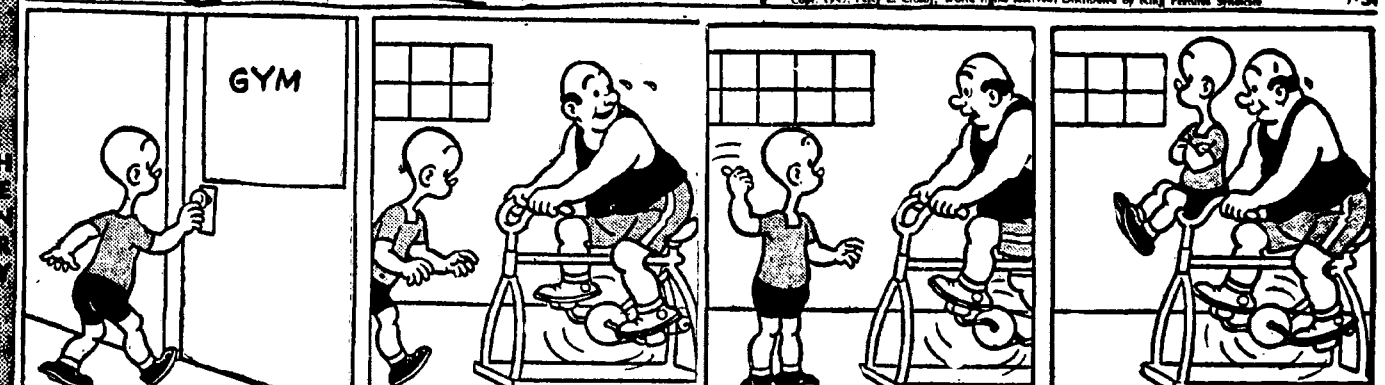

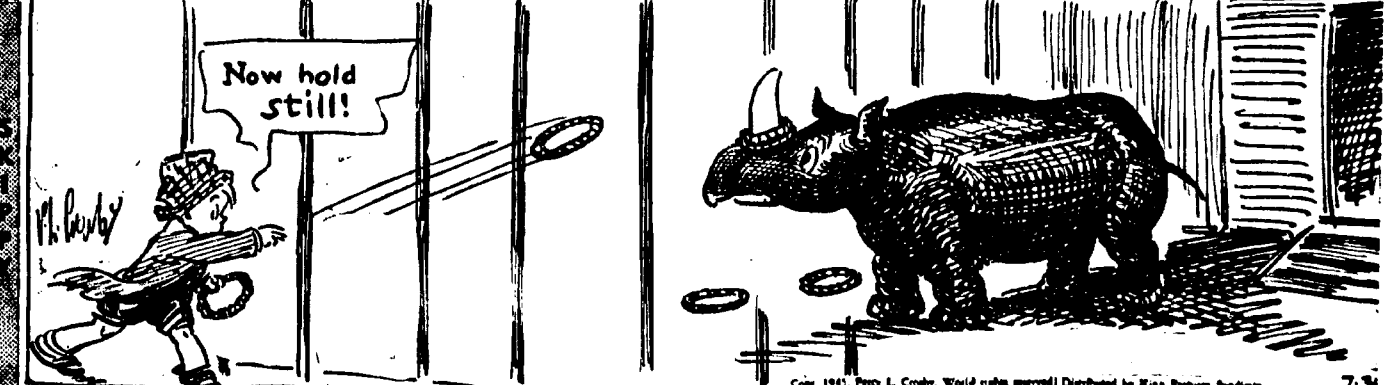

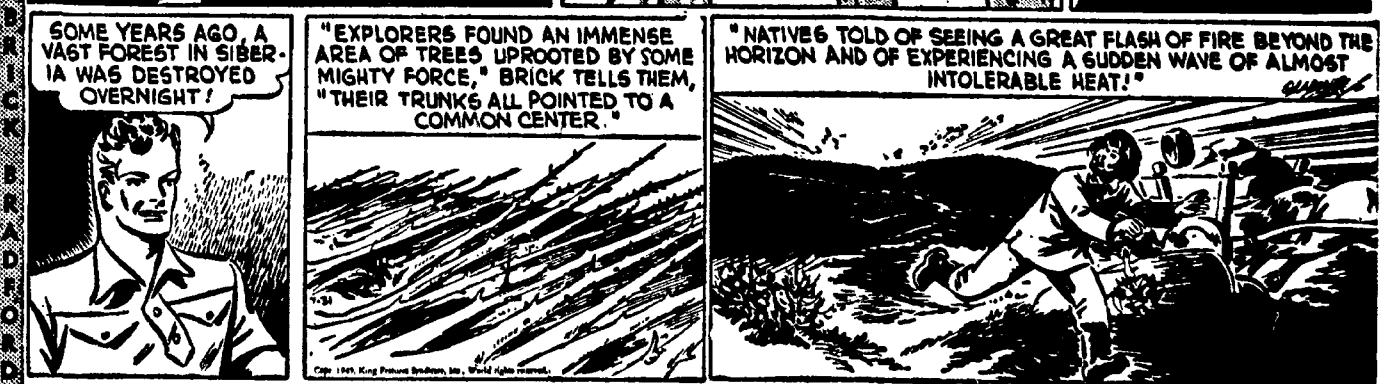

When the rice harvest starts, honor of the rice goddess, and for the guardian spirits of the farming villages.

The offerings are chiefly in the form of food, and included cooked rice, eggs, and fruit.

Java is in the Torrid Zone, not far south of the Equator. This fact might lead us to expect a hot climate, but the hills and mountains do a great deal to give the people a good place to live.

We might also expect heavy rainfall on Java, and if you expect that you surely will be right.

When the rice harvest starts, honor of the rice goddess, and for the guardian spirits of the farming villages.

\$40 Chinese Newspaper Cost City Man \$200 at Present Rate

News comes high in China, according to Maj. Joseph J. Peot, who has sent his wife and family here on an eight-page, tabloid-size paper published in Chungking for which he paid \$200 in Chinese currency.

Partial Socialism Seen for England

The success of the British Labor party in recent elections will bring a partial socialism to that

country, Prof. Selig Perlman, of the University of Wisconsin economic department, said Sunday night in a speech at the Memorial Union.

Claiming that the election turned more on domestic problems than on foreign policy, he said that the conduct of the Labor party during the war and the educational progress of that party had brought about the Labor landslide victory.

The election will bring about state control of such public industries as coal mines, power utilities, and transportation.

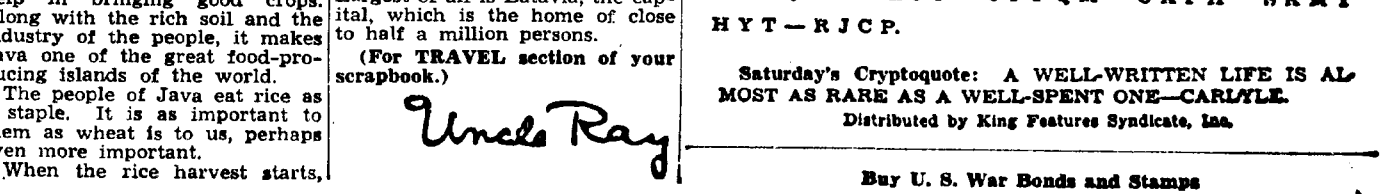

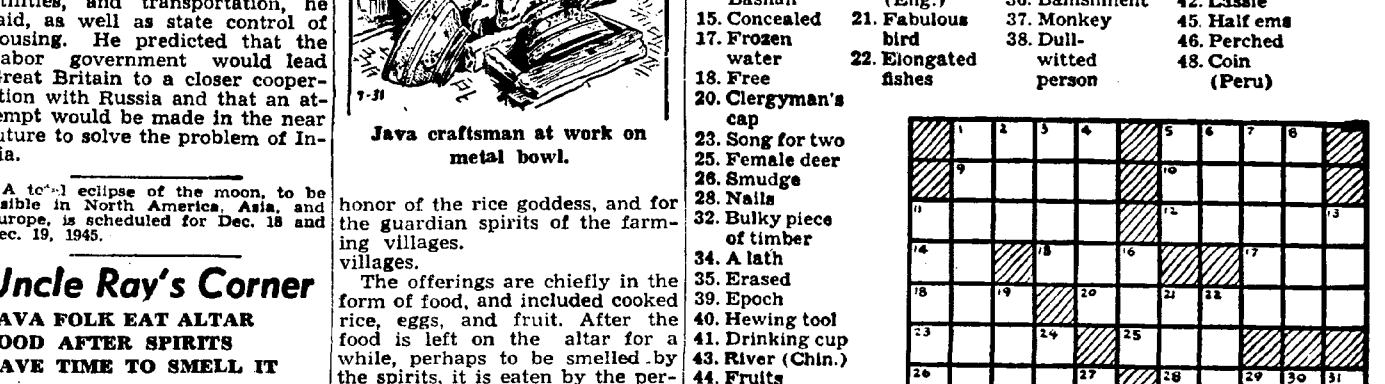

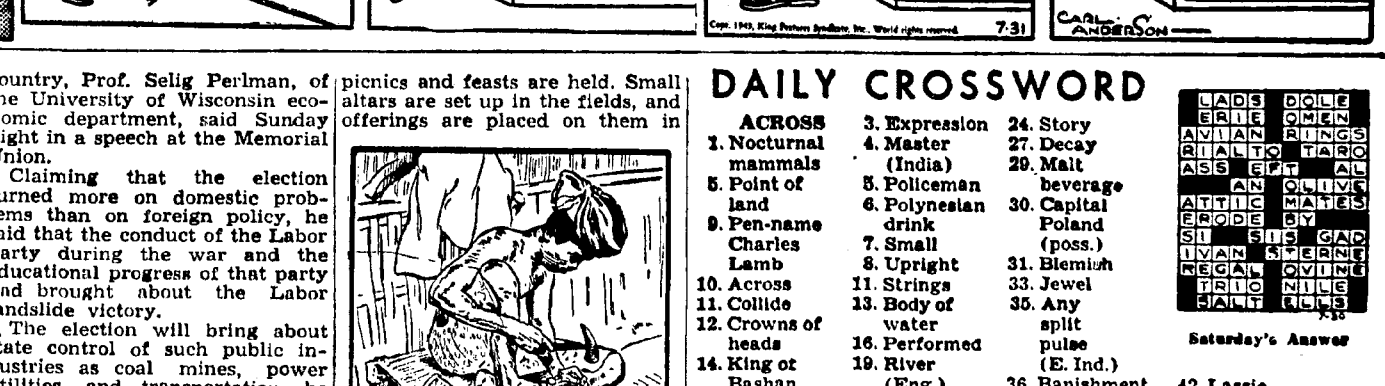

Another Mohammedan rule is that the flesh of the pig must never be eaten.
