The art of making natural perfumes has been known for thou-sands of years. It is only in the present century, however, that big steps have been taken to prothat duce artificial perfumes.

Can you imagine sweet smells being found in a lump of coal? It is hard to think of such a thing. but it is a fact!

Coal tar is obtained when soft coal is distilled. Oil is taken from

the coal, and this oil can be used for many purposes. Chemists have learned how to produce many kinds of perfume

from coal tar. It provides, for ex The peelings of oranges and lemons are pressed until the oil on taking perfumes from coal tar.
