

Movies To "Hold Their Own" For Fun Seekers Saturday

Another Navy Day but this time celebrations of the day will be under more peaceful conditions. Besides the many festivities scheduled for this Saturday, the movies will hold their own.

One picture in particular which works in quite well is "Anchors Aweigh" with Gene Kelly, Frank Sinatra, Kathryn Grayson and Jose Iturbi. What could be better than to have two sailors cavorting on a technicolor screen on Navy Day.

Well, it's a good picture—going around almost any musical filmed during the last season. "Anchors Aweigh" is currently playing at the Ohio theatre.

When the first atomic bomb fell on Japan, that in itself was a shock to citizens of America, but something which had almost the same potentialities as this bomb, but not as explosive, dropped on audiences at the Quilna theatre Friday. It was the film "The House on 92nd Street" which stars William Eythe, Signe Hasso and Lloyd Nolan.

The picture tells about the Nazi German spy ring and its means of training people in the art of espionage.

To belie any thoughts which may have arisen in the minds of film fans, let this reviewer tell you that the picture "The First Yank in Tokyo" at the Sigma theatre, does not tell of the first soldier who marched in. On the contrary, it tells of the first American man who entered Tokyo before the war was over.

His mission was to help release an American prisoner of war whose knowledge was vital in the perfecting of the atomic bomb.

When Eddie Bracken sings like Bing Crosby, the notes send you, Bracken, currently to be seen at the State theatre in "Out of This World" has acquired the art of pretending he's singing, yet Bing Crosby's voice is the one heard.

Your laughter will increase rapidly when you see this hilarious film.

If you're the type who likes to be scared half out of your wits, then the film which will open Saturday midnight at the Lyric theatre should please you immensely.

The movie is "The House of Frankenstein" with Boris Karloff in the starring role. Sharing the bill will be "Nevada."

The Marines have landed, "The Marines are Here." That sounds like part of a poem, but it isn't.

It's the name of a film which will arrive at the Allen theatre Sunday. The co-feature of the film is "Lawless Frontier."

Theatre Guide

President Truman To Speak From New York "Navy Day"

President Truman's Navy Day address from New York will be broadcast over station WOR as the nation's chief greets the mighty armada of warships assembled in American waters during the annual observance of the day set aside in tribute to our fighting men of the sea.

The President's speech, which will be delivered at 1:30 p. m. Saturday from the west side of the Mall in Central Park, will be preceded by a description of the armada of the chief executive, and portions of the band salute. An address of welcome by Mayor La Guardia will also be a feature of the broadcast which is expected to continue until 2 p. m.

The famous radio announcer and news commentator, Andre Baruch, who was recently discharged from the Army Signal Corps with the rank of major after receiving a decoration for distinguished service overseas, will be the guest on WOR's roundtable of romance program, "Leave It To The Girls" at 9 p. m. Saturday.

Helen Hayes will be heard in the role of "Anita" when the poignant love story, "Intermezzo" is presented on the Theatre program at 7 p. m. over WABC. "Intermezzo" is the story of Anita Hoffman, gifted pianist, and her tender and youthful love for a mature and distinguished concert violinist. Thru the lovely young girl, the musician believes his youth has been recaptured with the new love.

WORLD CONTROL OF ATOM URGED

Eden Warns Against Failure Of Cooperation

LONDON, Oct. 27.—(INS)—Anthony Eden, former British foreign secretary, warned today that nations of the world must control atomic energies and must work together or they will "destroy each other utterly."

Eden's statement was made at the University of Leeds where he received the honorary degree of doctor of laws.

He declared that no one nation, however powerful, will ever be strong enough to dominate Europe and still less the world.

"A third World War would mean the annihilation of the human race," Eden warned.

The former foreign secretary said that the nations of the world were not drawing closer together as they should. "Unhappily," Eden said, "the tendency today is rather in the reverse direction."

He admitted that difficulties in closer association were formidable and pointed out that some people believe them to be insurmountable. "do not take that view," he said.

"If ever nations begin to throw atomic bombs against each other, no individual nation's security, however well guarded, is going to avail much."

Eden will have to control these new forces whose destructive power is growing in giant strides, and we will have to control them now. "International cooperation is the only way and time presses."

SUB CHIEF TO SPEAK
CLEVELAND, Oct. 27.—(AP)—Vice Adm. Charles A. Lookwood, commander of the submarine forces of the Pacific fleet, will be one of the principal speakers at Navy day observances here today.

LORAIN JUDGE DIES
LORAIN, Oct. 27.—(AP)—William B. Thompson, first president of the Lorain Chamber of Commerce and former judge of the Lorain-co common pleas court, died yesterday. He was 82.

Test Plane Travels Twice As Fast As Sound Waves

BUFFALO, N. Y., Oct. 27.—(INS)—Dr. C. C. Furnas, Curtiss-Wright airplane division scientist, announced today that aviation speeds in excess of 1,400 miles per hour, about twice the speed of sound, have been achieved in tests which are still being made.

Dr. Furnas, director of research laboratory of Curtiss-Wright aviation division, said the planes in the test "are not man-carrying," and it was assumed this meant robot-planes.

The tests, which are not being conducted in the Buffalo area, are flown at low altitude, he said.

Dr. Furnas said he believes commercial airplanes will be using a speed of between 500 and 600 miles per hour in about 10 years. He added that commercial speeds of 1,400 miles per hour could not be achieved for at least 25 years.

Dr. Furnas, who revealed the new aviation achievement to a group of newspaper reporters touring reconversion centers, said many problems arise in flights at such enormous speeds. He said his job is to combat these problems. He made it clear, too, that Curtiss-Wright is not the only company engaged in the tests.

A principal reason why commercial flights will not soon reach higher speeds than 500 to 600 miles an hour, Dr. Furnas said, is the cost of the various devices.

STUDY OF OHIO PENAL SYSTEM IS AUTHORIZED
COLUMBUS, Oct. 27.—(AP)—Charles L. Sherwood, chairman of the State Pardon and Parole commission, today was named to head a penal study committee of the Ohio post-war program commission.

Gov. Frank J. Lausche has asked the commission to select a site for a new \$5,000,000 penitentiary and it was decided to study all phases of the state's penal system as well.

Sherwood is a former state welfare director.

New Caledonia is about 250 miles long.

INSPECTOR LOSES JOB, CHARGES ARE FILED

COLUMBUS, Oct. 27.—(UP)—Irvin H. Shimman, of Toledo, state liquor inspector, was charged following filing of a charge of taking money from permit holders in the Lima district who were operating slot machines, the state civil service commission was informed today.

An order of removal stated that Inspector Shimman had allowed permit holders to operate gambling devices in their establishments and had not reported the offenses to the liquor department.

It also said that he had accepted money from the tavern keepers. His removal is effective Nov. 2.

The commission also was informed today that Harry Peattie, Sr., payroll auditor in the bureau of unemployment compensation, was to be removed Oct. 31 for incompetency and inefficiency.

A defective windshield wiper, causing streaky, imperfect wiping, may result in an accident by obscuring or confusing a danger point.

Northwestern Honors King With Degree

CHICAGO, Oct. 27.—(INS)—Fleet Adm. Ernest J. King was awarded the honorary degree of doctor of laws by Northwestern university today.

The degree was conferred by the university president, Franklin B. Snyder, at a naval convocation that ushered in the university's celebration of Navy Day.

The citation accompanying the degree described King as "student, tactician, strategist, calm in emergency, forceful in argument, a great executive — the fighting leader of the greatest navy the world has ever seen."

The household of Henry VIII consumed \$250,000 worth of drink annually.
