

# "Week-End At The Waldorf" Wowing Audiences At Ohio

Movie-goers will find a host of films from which to choose Saturday. Theatre marquees are loaded to the hilt with good film fare. Besides comedy, there is mystery, tragedy, musicals and many others which will be of interest to fans.

At the Ohio theatre is a humdinger. It's got everything from movie stars right down to the luxuriousness of the Waldorf Astoria in New York. Things begin happening when Walter Pidgeon accidentally tries to dodge some people and winds up in a movie stars suite. Things in the film may seem a little disconnected at first but as the plot moves on, you'll begin to shape things in your own mind.

A movie based on a nursery rhyme may sound a little childish but you'll see how wrong you are when you attend the showing of the film, "And Then There Were None," adapted by Rene Clair from Agatha Christie's famous mystery novel now showing at the Quinn theatre. First there were 10 then they were gradually killed off until there were only two left. The surprise ending is as startling as you might think it would be.

Returned to the Sigma theatre for another showing because demand in Lima was so great is the film "Stagedoor Canteen" with William Terry and many of the movie stars whose determination made this canteen what it turned out to be—a haven for homesick soldiers. You'll love every minute of the film which walked off with honors after its first few showings.

Ernie Pyle's story of "GI Joe" opening at the State theatre Sunday shows the real story of the fellow who went thru the many battles of the European war. It's a heroic story, one which will not be forgotten in a time. Also many of the sequences had to be removed from the film because of their gruesomeness, many of them are awful beyond words of description. When this reviewer asked a returned veteran what he thought of the movie he replied, "It was entertainment, but nothing as horrible as those battles could be set down in pen and ink or on celluloid."

Folks, the Marx brothers are back, yes, they're at the Lyric and stirring up as much fun as ever before. In the film "Go West" you'll find more fun than you can shake a stick at. Sharing the billing is "Rough Ridin' Justice" with Charles Starrett. Tim Holt rides again in "Six Gun Gold" now showing at the Allen theatre. The co-feature of the film is "Federal Bullets." Coming Sunday is "Salute to the Marines" with Wallace Beery and "Cheyenne Wildcat."

### Girl Admits Faking Story

GLOVERSVILLE, N. Y., Nov. 3—(AP)—An 18-year-old girl, who admitted giving a false wedding story to The Gloversville Leader-Republican, was on probation today after receiving a suspended sentence.

The defendant, Miss Leona M. Dillenbeck, originally was charged with giving false information to a newspaper, a misdemeanor under New York law, but because she had not reached her 19th birthday she was accused of being a youthful offender.

Recorder A. Page Smith suspended sentence yesterday. Sheriff F. Eugene Smith said the girl admitted telephoning the newspaper Sept. 17 and giving the city editor information of her purported marriage to a discharged serviceman.

Attorney Wesley H. Maider, representing the newspaper, said the paper had filed the complaint in an effort to protect itself and the public from repetition of the offense.

One of the world's most powerful explosives, cordite, is used as chewing gum by feminine workers in cordite factories.

# Prisoners Will Be Taken Home

WASHINGTON, Nov. 3—(UP)—All Axis prisoners of war in the United States will be sent home by late winter or early spring of next year, it was learned today.

War department sources said prison camps in this country now hold nearly 400,000 prisoners. About 60,000 are Italians, 5,000 are Japanese and the remainder German.

All members of the Italian Service units, described as the "most cooperative" of prisoners, will be returned to Italy by the middle of this winter. These units were set up after Italy surrendered and assumed the status of a cobelligerent.

The Germans and Japanese will be returned to their homelands in the following order: First, the sick and wounded; second, "cooperatives," and third, the "non-cooperatives."

# Murder Victim Is Identified

TOLEDO, Nov. 3—(INS)—Authorities reported today that Mrs. Lottie Eisel of Toledo said she is certain that the body of a girl found in the Maumee river near Napoleon is her daughter, Mrs. Naomi Marie Dawson, 24, wife of a serviceman.

Capt. Ralph Murphy, head of the Toledo police homicide squad, said that Mrs. Eisel identified old scars on the leg, head and finger and dental work when she viewed the body in a Napoleon mortuary.

Police continued to hold to their theory that the young, attractive woman had been murdered, due to marks of violence found on her body.

If the body should prove to be that of Mrs. Dawson, the identification would only deepen the mystery of what has happened to the woman's one-year-old son, Clyde Dawson, Jr.

Mrs. Dawson and the child have been missing since Oct. 14 when they left Mrs. Eisel's home for Detroit.

Forests and brush-covered land total 19,142,000 acres of Missouri's 44,292,000-acre land area, according to the State Conservation Commission.

# Garage Business Begins On "Hookey Hall" Air Show

In line with the reconversion program, Bobby Hookey, radio's youngest comedian, and his contemporaries launch an auto repair business and open a garage on the "Hookey Hall" program to be heard at 9:30 p. m. Saturday over WOR.

More fun than usual hold the high spot on this uproarious fun fest.

The mysterious land of Hindu India will be the topic of Dean Smith, the "World Traveler" on the program of the same name to be heard at 6:15 p. m. Saturday over WGN, Chicago.

Smith, who spent more than 20 pre-war years in the Orient, will visit the places and temples, marvels of Hindu structure, and the ancient fortresses that connect India with the civilization of the world.

Broadcasting again from Hollywood, where he's at work on a new movie, Roy Acuff, master of ceremonies, brings another "Grand Ole Opry" program to the air. The

### DALEY FOR MAYOR

VOTE X WILLIAM V. DALEY

Mark Your "X" as Above for Your Choice as Lima's Next Mayor

We have for too long been floundering around in a sea of indecision and indifference due to a lack of a program. This I propose to correct. As your Mayor I shall appoint a cabinet of qualified advisers to assist in formulating plans and policies to be presented to the Council for its approval. This cabinet, while entirely unofficial, will be made up of individuals who are experts in their lines of work and can thus make their valuable experience available to your city administration. As your Mayor it shall be my duty to organize this advice and reduce it to a constructive plan for the government of our city. This plan shall include the following:

### DALEY'S PLATFORM

1. TAXATION. A detailed intelligent budget to provide sufficient revenue for the operation of all departments of city government with proper supervision to see to it that no funds are wasted or unwisely spent.
2. LABOR. I believe that all employees of the City should be paid a fair wage equal to that paid to employees of private business for similar types of work. Labor, on the other hand, has a duty to see to it that a full measure of service is rendered for the wages received.
3. POLICE AND FIRE DEPARTMENTS. These important departments of city government should each be in charge of a competent chief whose control of his department should be free from any interference from Council or Mayor. These chiefs should be solely responsible to the Mayor for the operation of their departments. I favor opening No. 2 Fire Station and having a uniformed policeman "walking a beat" in the business section of Lima, from McKibben Street to Second Street.
4. MAINTENANCE. Deferred maintenance is always the most costly form of operation. A systematic plan of routine maintenance and replacement should be inaugurated. The cost of this maintenance should be provided for in each annual budget. Such a program would include street repairs, repairs of sewer, street lighting, traffic lights, police and fire signaling, repairs to city owned buildings, bridges, parks and the equipment of the Police and Fire Departments. There is absolutely no excuse for permitting our public property to fall into rot and decay and then seek new bond issues to replace it. Let's take care of what we have on a pay-as-you-go basis.
5. CAPITAL IMPROVEMENTS. At least three important improvements need to be made immediately. These are a new reservoir (now in the throes of being accomplished), a Garbage Disposal Plant and a new City Hall. The need for adequate Garbage Disposal is apparent to every householder in Lima. Its construction has been too long delayed. Plans must be drawn and this improvement put in before our present hazardous method brings about a serious epidemic of diseases. Our city council now is facing the embarrassing fact of being barred from its own chambers because the city Fire Inspector has ruled the building unsafe and a fire trap. Now we are faced with the responsibility of financing these improvements through bond issues.
6. PARKS AND RECREATION. With the exception of Schoonover Park we have virtually no park and recreational facilities in the City. Such as we have had, have been allowed to go to rack and ruin due to the lack of care. A live-wire Park Board backed up by a constructive maintenance policy could do wonders with the facilities we now have. This plan should include a park for South Lima.
7. GENERAL. We, the citizens of Lima, have a corporation with a tax value of nearly 70 million dollars. It belongs to all of us collectively—be we land owner or tenant. Through the taxes or the rent we pay we help to furnish the money to keep this corporation running. Since our money goes into it our interest should also be in seeing that it grows and develops and keeps pace with other cities with which it must compete. We cannot afford to permit Lima to go backward. It must go forward, gradually, steadily and definitely so that all of us who own this City can be proud of our possession and eager to tell others about our HOME TOWN.

### DALEY'S PLATFORM

1. TAXATION. A detailed intelligent budget to provide sufficient revenue for the operation of all departments of city government with proper supervision to see to it that no funds are wasted or unwisely spent.
2. LABOR. I believe that all employees of the City should be paid a fair wage equal to that paid to employees of private business for similar types of work. Labor, on the other hand, has a duty to see to it that a full measure of service is rendered for the wages received.

2. LABOR. I believe that all employees of the City should be paid a fair wage equal to that paid to employees of private business for similar types of work. Labor, on the other hand, has a duty to see to it that a full measure of service is rendered for the wages received.
3. POLICE AND FIRE DEPARTMENTS. These important departments of city government should each be in charge of a competent chief whose control of his department should be free from any interference from Council or Mayor. These chiefs should be solely responsible to the Mayor for the operation of their departments. I favor opening No. 2 Fire Station and having a uniformed policeman "walking a beat" in the business section of Lima, from McKibben Street to Second Street.
4. MAINTENANCE. Deferred maintenance is always the most costly form of operation. A systematic plan of routine maintenance and replacement should be inaugurated. The cost of this maintenance should be provided for in each annual budget. Such a program would include street repairs, repairs of sewer, street lighting, traffic lights, police and fire signaling, repairs to city owned buildings, bridges, parks and the equipment of the Police and Fire Departments. There is absolutely no excuse for permitting our public property to fall into rot and decay and then seek new bond issues to replace it. Let's take care of what we have on a pay-as-you-go basis.
5. CAPITAL IMPROVEMENTS. At least three important improvements need to be made immediately. These are a new reservoir (now in the throes of being accomplished), a Garbage Disposal Plant and a new City Hall. The need for adequate Garbage Disposal is apparent to every householder in Lima. Its construction has been too long delayed. Plans must be drawn and this improvement put in before our present hazardous method brings about a serious epidemic of diseases. Our city council now is facing the embarrassing fact of being barred from its own chambers because the city Fire Inspector has ruled the building unsafe and a fire trap. Now we are faced with the responsibility of financing these improvements through bond issues.
6. PARKS AND RECREATION. With the exception of Schoonover Park we have virtually no park and recreational facilities in the City. Such as we have had, have been allowed to go to rack and ruin due to the lack of care. A live-wire Park Board backed up by a constructive maintenance policy could do wonders with the facilities we now have. This plan should include a park for South Lima.
7. GENERAL. We, the citizens of Lima, have a corporation with a tax value of nearly 70 million dollars. It belongs to all of us collectively—be we land owner or tenant. Through the taxes or the rent we pay we help to furnish the money to keep this corporation running. Since our money goes into it our interest should also be in seeing that it grows and develops and keeps pace with other cities with which it must compete. We cannot afford to permit Lima to go backward. It must go forward, gradually, steadily and definitely so that all of us who own this City can be proud of our possession and eager to tell others about our HOME TOWN.

### DALEY'S PLATFORM

1. TAXATION. A detailed intelligent budget to provide sufficient revenue for the operation of all departments of city government with proper supervision to see to it that no funds are wasted or unwisely spent.
2. LABOR. I believe that all employees of the City should be paid a fair wage equal to that paid to employees of private business for similar types of work. Labor, on the other hand, has a duty to see to it that a full measure of service is rendered for the wages received.
