### STEREOSCOPIC FULL COLOR KODACHROME PICTURES

Bring the World in Color Into Your Living Room

Remember the old stereopticani. Here is its modern counterpart—the View-Master. Here's all you do-load the plastic View-Master with the real you want, look through the twin eye-pieces (this gives the three dimensional effect missing in the ordinary photograph.) Then flip a little switch, and the picture changes. Inexpensive -the View-Master is \$1.50; seven-picture reels, 35c or three reels for \$1. Really inexpensive-when you consider the hours of entertainment and education.
