Gracie is occupied with the Beverly Hills Uplift Society again on the Allen broadcast at 8 p. m. Thursday.

The Allens have hopeful plans to raise money for their summer program to present a play with Charles Boyer playing the part of the French lover, George, with his usual luck, is cast in the unromantic part of an Irish truckdriver.

Frank Morgan subs for Bing Crosby on the Music Hall at 9 p. m. Thursday over NBC. Morgan brings along a familiar visitor, Vera Vague, and a Hollywood starlet, Louanne Hogan.

Cattle rustlers have a hey day when Bud Abbott and Lou Costello fancy themselves rangers on the side of the law. Bud and Lou take their "shootin'" horns when Lou's Uncle Artie Stobbins asks them out to the cattle ranch to help him catch cattle rustlers, but the shootin' isn't all on their side on the "Abbott and Costello Show." The broadcast is heard at 10 p. m. Thursday over NBC.

Nancy Kelly of the films is the star when "Suspense" is broadcast at 8 p. m. Thursday over CBS. Presented will be "Dark Journey" by Lucille Fletcher. The story is of a young girl, still in love with a man who has left her. The drama builds to a surprising climax.

The disturbance on Apr. 27 and 28. The current sunspots—gigantic whirlpools on the Sun's surface which emit intense radiation—are not the same group which caused the terrific magnetic storms of February and March, Miss Lincoln said.

One slip at this stage and this handsome speckled brook trout, taken in the tumbling waters of a tributary stream of Lac St. Jean in Northern Quebec, would live to fight another day. The fisherman must be sure-handed and certain of foot to reel his prize, even after he has found his quarry, lured him with the right fly, played and taken him. It is expected that very many will go in the Laurentian region of Quebec this Spring, and will find out whether they still have their skill of bygone times.

Sunspots Cause Magnetic Storm

WASHINGTON, Apr. 25—(UP)—Vast sunspots about 20 times the area of the earth are stirring up a magnetic storm which has been interfering with communications since midnight Monday, the National Bureau of Standards said today.

Chiefly affected by the current sunspot activity, according to Miss J. V. Lincoln of the bureau, is North Atlantic short wave radio transmission to Europe.

Miss Lincoln said the magnetic storm probably would last thru Thursday. She forecast a lull of one day and then a recurrence of

Rail Traffic Bans Removed

WASHINGTON, Apr. 25—(UP)—The Office of Defense Transportation today lifted the last of its controls on railroad passenger traffic.

It revoked, effective May 1, its

order placing all day coaches and baggage and express cars at the disposal of military authorities as needed.

Demobilization has passed its peak, the announcement said, and transportation controls are no longer necessary.
