MEXICO CITY — (U.P.) — The irrepressible Jorge Pasquel, president of the Mexican League, not satisfied at raiding American teams for talent, proposed a post-season international World Series this fall between the winning team in his circuit and the winning of the major league World Series.

"It would be a real world Series." "It would be a real world Championship, with a Mexican League champion playing the U.S. World Series winner for the title." he said.

"It would be a real world championship, with a Mexican Block 1, Spring Harbor, Town of Madson." Permit denied for the reason that side yard is less than ordinance requirements;
