WASHINGTON, Oct. 31-(AP) -A wide extension of rent ceilings effective Nov. 1, was announced today by OPA.

The agency announced that 88 more rental areas with a total population of more than 3,500,000 will be brought under rental ceilings Friday.

Eighty-one of these areas are being controlled for the first time while rent ceilings are being restored in the remaining

At the same time the Bluefield, W. Va., area will be extended to include Boone, Fayette and Summers-cos.

These 88 areas had a total of 323,549 rental units in 1940, OPA

said. The agency said that the new additions bring the nation's rental areas up to 650 and that "few additional areas will require controls because today's list covers those in which rent pressures have been mounting since the war."

Government officials said they had been watching rents througt the country since the end of the war and that the housing shortage "has been becoming more acute."

They said that action in many of the areas going under ceilings next month resulted from appeals or petitions by local officials. "Increasing employment by local industry, return of veterans and their families have contributed

to the housing shortage in most areas," they said. Included in the new ceiling areas are 23 college towns where the return of veterans and students has aggravated housing shortages.
