We Set An Example

Linguist Finds Self Near-Yet So Far

ROME—(O.N.A.)—Perhaps the world's most embittering linguistic experience was that just undergone by Pompeo Donati, a onetime Fascist who today has been abandoned by most of his friends and, in addition, is unemployed.

Novel Idea

A Kansas woman won a \$100 prize for a short story. There should be another prize for the person who found a woman who could tell a short story.—La Crosse Tribune.

Takes Conscious Effort

Lots of folks are worrying over what the world is coming to. We just hope it's really coming to.—La Crosse Tribune.

Justice, it seems, not only is blind; she isn't very good at telephone connections either.

Aviation Industry Needs New Ideas

Healthy Airplane System Held Essential to Security

By MARQUIS CHILDS
WASHINGTON—HOWARD HUGHES looks younger than his 41 years.

There's more than a touch of Texas in the way he speaks—the short, Texas sentences, the twangy voice. Typecasting by Hollywood would put Gary Cooper or James Stewart in the part.

Big American Market

Whether Singh or any of his fellow citizens of India ever get one of the new pint-sized tractors doesn't matter too much to the makers—International Harvester.

They believe there are at least 3,000,000 farmers in this country who may be interested.

appeared before a senate committee with a new and bold idea. That was Lieut. Comdr. Langdon P. Marvin, Jr., who, out of his experience with the naval air transport service during the war and his researches since then, has become an authority on air cargo.

Appearing as a private citizen before an aviation subcommittee, he testified that his estimates showed 3,000,000 pounds of air cargo could be carried on a profit-making basis across the Pacific each year.

Bill was a night clerk at the post-office when Judge Keyes was postmaster.

The judge always had his barber work done in the George Burrows shop.

One morning after work Bill dropped into the shop for a shave.

George shaved Bill, but before he had finished the job Keyes dropped in.

Keyes looked surprised to find the chair occupied, but did not know who was in it.

The judge always insisted on having hot water applied to his face.

Little Tractor Hailed as Aid to Small Farms

WASHINGTON—(U.P.)—The dark visitor from India stepped down, adjusted his bright pink turban, and said he was amazed.

He had just finished his first bout with an American-made tractor. The particular tractor happened to be what is reputedly the smallest and cheapest on the market.

The Indian was Gurbachan Singh, official of the Indian supply mission. He had taken a turn around a field with a 12-inch plow attached to the little machine.

Machines Tell How Much You've Drunk

NEW YORK—(U.P.)—Science has caught up with the men who get home and explain to the little woman that they have had "just a couple of beers with the boys."

Two machines, the intoximeter and the drunkometer, can be used to gauge exactly how much alcoholic beverage he's had.

Dr. Walter W. Jetter, Harvard university, explained the devices to the traffic court judges and prosecutors conference at New York university. They measure the exact alcoholic content in a person's blood and breath, and the evidence is admissible in most courts.

Dr. Jetter explained that if a person's blood shows .05 per cent to .15 per cent alcohol, his intoxication may be questionable. Above .15 per cent, he's drunk. A score of .25 per cent or more and he's flat on his back.

To get the .15 per cent figure, Dr. Jetter said the average man weighing around 150 pounds must drink six or seven ounces of alcohol in a half hour. That, he added, is not social drinking.

Army Dog Tags Solve Lost Child Problem

MINNEAPOLIS—(U.P.)—Ex-GI's at University Village, University of Minnesota housing project for veterans and their families, had a hard time keeping track of their some 300 children.

A 2 1/2-year-old boy was lost until after dark. Two other children wandered almost a mile away. Other incidents were reported.

Jack K. Hartman and James M. O'Hara, a couple of villagers, solved the problem. They've sold 500 army-type dog tags at 25 cents each, to be hung around the toddler's neck. The tag gives the child's name and address.

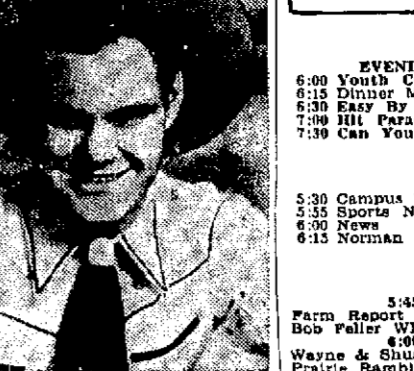

Texas Snubs Oklahoma on Joint Celebration

AUSTIN, Tex.—(U.P.)—Joint observance of Oklahoma's "Boomer-Sonner Day" and Texas' "San Jacinto Day" has the opposition of the descendants of the Republic of Texas.

Descendants of the folks who lived in Texas before statehood want the day of the Texans' victory over Santa Ana to remain a lone Texas celebration each April 21.

A joint celebration at Lake Texoma, between the states, had been suggested by the Oklahomans, as the days are successive.
