## PETRILLO STAND

WLIB-1190 ATLANTIC CITY, N. J., Sept. 18 WNHC-1340 -The National Association of WOV-1280 Broadcasters closed its 25th annual WMCA-570 convention today with a challenge WSTC-1400 to James C. Petrillo and a request to its board of directors to speed the final draft of a proposed new 7:48 A.M.-Morning Devotions; Rev. Leon | code for radio.

> In the final session, the broadcasters adopted two resolutions concerning Petrillo's AFL American Federation of Musicians.

> One resolution noted that union officials had indicated musicians might not be permitted to make further records and transcriptions or appear on network programs after present contracts expire. It said "the American broadcasters are firmly resolved, in such event, to take all necessary and proper steps to continue and extend their full service to the public."

> The other resolution declared that operators of both standard and frequency modulation stations "should insist upon their right" under the Taft-Hartley and Lea acts to duplicate music programs. Petrillo has refused to permit broadcast of so-called "live" music over both FM and standard stations at the same time.

> The recommendation for speedy adoption of a proposed code of selfregulation also was contained in a resolution The resolution asked. however, that the committee which drafted the code submitted at the convention work with the board of directors in reviewing various provisions that drew objections during discussions Tuesday and today.

The code would limit commercials, provide restrictions for crime, mystery and children's programs, ban advertising of certain types of products and set up standards of

There were indications that the hotly debated code would be adopted but when and in what form was another question. Under NAB bylaws, the board and not the members will make the decision.

The board will meet here in a post-convention session tomorrow but NAB President Justin Miller, also chairman of the board indicated that final action then is unlikely, although possible.

### Acrasol INSECTICIDE

KILLS MORE INSECTS TWICE AS EASILY

AS OLD-FASHIONED SPRAY METHODS moths, flies, roaches, many others. No fill-ing . . . No pumping. A twist of the thumb, and it's done! Safe.

Use according to directions. Economical! 3 mizen, 980 to \$3.98-\$3.98 size refillable at \$2.
