The Happiest Families Own Their Own Homes

Do you envy the young couple here? They started early to save for a home. They had a good-sized down payment saved up when they found the home they wanted.

Then moderate cost "Old Faithful" home-financing helped them get their home. Convenient monthly payments—as easy as rent. But with something to show for the money at the end... and more happiness all the way. You can follow their example. Talk things over with us.
