ANSWERS TO QUESTIONS

By HASKINS

A reader can get the answer to any question of fact from The Long Beach Press-Telegram Information Bureau, Old City St., N. E., Washington 2, D. C. The charge is three (3) cents for return postage.

Q. Who were the Socialist candidates in recent Presidential elections? How many votes were received by them in 1944? F.B.E.

A. In 1936, 1940 and 1944, Norman Thomas was the Socialist Presidential candidate. His running mates for Vice President were George Nelson of Wisconsin, Maynard Krueger of Illinois, and Darlington Hoopes of Pennsylvania. In 1944 the recorded Socialist vote was 80,518.

Q. What country has the smallest farms? L. L.

A. The typical Japanese farm has only 2 1/2 acres and is believed to be the smallest of any nation in the world. Half of the Japanese farms consist of less than 1/4 acre.

Q. Has the explosion of an atomic bomb enough force to be recorded on a seismograph? M. D. I.

A. The atomic bomb test explosion in New Mexico, July 16, 1945, was recorded as a light earthquake on seismographs in the United States.

Q. When was the name of the former Chinese capital changed from Peking to Peiping? T. M. E.

A. The early name of the city was Khanbalig. In 1421 it was named Peking (Northern Capital); in 1928 the Nationalists changed the name to Peiping (Northern Peace).

Q. What is the present ski jumping record? V. E. H.

A. The world ski jumping record is 350.96 feet. The record leap was made in 1938 by Joseph Bradl of Austria at Planica, Yugoslavia.

Q. Does a bird walk on its toes? R. V.

A. A bird walks on its toes. The ankle and foot bones are fused and drawn out into a long, slender bone, the tarsus, which is the only part of the leg that usually shows below the feathers. To it the toes are attached.

MCKENNEY ON BRIDGE

By WILLIAM MCKENNEY

It is always a real treat to bid and make a grand slam, but how would you like to find yourself the declarer in a grand slam contract at a suit in which your hand was void? That happened to Mrs. Lill Klehmet of New York with today's hand.

She and her partner, Milton Perry, were playing the Blackwood convention. If you will look over the bidding, you will see that it was quite normal. Certainly Mrs. Klehmet's bid of one club was sound, as was North's double.

I do not know what you would have elected to bid with the East hand, but Perry decided to use the Blackwood conventional bid

seven hearts, which North doubled.

Of course Mrs. Klehmet thought that her partner had misunderstood her five hearts bid and believed it to be an actual heart bid rather than simply an indication of two aces, but she gamely passed.

She trumps the opening diamond lead in dummy and took three rounds of trumps. Then she led the nine of clubs and decided to discard one of dummy's spades, and thus make thirteen tricks, a grand slam in hearts without a heart in her hand.

on the first round. North doubled.

A small diamond was ruffed in dummy, the jack of clubs was led, and when South played low, Mrs. Klehmet decided to try to drop the queen. When it fell, her eight-spot was bigger than South's six, so all of her clubs were good. She was able to discard one of dummy's spades, and thus make thirteen tricks, a grand slam in hearts without a heart in her hand.
