Fix It Yourself by HUBBARD COBB (The Handy Man) TOPIC OF PUBLIC INTEREST Whenever we read the results of a public opinion poll we laugh out loud "ha ha" because, confidentially, we REALLY know what the great American public is thinking

about. At week's end these were the questions that kept the citizens from getting to sleep. Will fish (no particular type) survive the winter in a pond that freezes right down to the bottom? Fish will tell you "no". A fish will die if there is open water under the ice but they can't stand being turned into ice cubes as this interferes with their breathing.
