QUESTIONS

By HASKIN

Q. What is the average per pupil cost of education in this country?—W. M. L.

A. The average cost as reported by the National Education Association is \$99 per, pupil for tife nation as a whole. New York spends the most—\$234 per student. Mississippl with \$25 per student spends the least.

Q. What is a "freemartin"?

E. F. E.

A. A heifer born as a twin with a bull calf is known as a freemartin. It is sexually imperfect and generally sterile.

Q. Is there a time limit within which an amendment to

Q. Is there a time limit within which an amendment to the Constitution must be ratified by the states?—J. G. R.

A. If no limit is placed by Congress, proposed amendments to the Constitution are before the states indefinitely. Congress placed a time limit of seven years in the case of the Eighteenth, Twentleth and Twenty-first Amendments. Section 2 of the proposed Twenty-second Amendment, limiting the tenure of office of the President, says that it shall become inoperative unless ratified by three-fourths of the states within seven years.

Q. What are the oldest race tracks in the United States?—L. R. M.

A. According to the Encyclopedia of Sports by Frank Menke the oldest track still in use is that in Saratoga, N. Y., where the inaugural meeting was held Aug. 2, 1864. Next oldest is Pimlico, in Baltimore.

Q. Are birds on the whole beneficial to man even though some of them are destructive to crops?—V. B. E.

A. Birds are sometimes destructive to crops but their service in consuming weeds and insect pests far overshadows any damage they do. Birds consume astonishingly large quantities of food. A young robin may eat 165 cutworms in one day. The stomach of a yellow-billed cuckoohas been known to contain 250 tent caterpillars and the stomach of an owl, 17 miles. Bobwhite quall eat an estimated 134 tons

reader can get the answer to any ion of fact by writing the Free-Tale-Information Eureau, 316 Eye St., Washington 2, D. 0. Please ca-three cents for return postage.

PART scores are very important in tourney play. In the Vanderbilt Cup tournament this year one team was eliminated by 30 points, another one by 80. In the final match after two sessions of play there was a difference of only 270 points. Today's hand involved one of ne closest battles for a part

Today's hand involved one of the closest battles for a part score contract I have ever seen. To defeat the contract Iselin Simon (West) of the New York Bridge Whist Club team had to execute a very fine play.

Simon cashed the queen and fack of clubs, then shifted to the nine of spades. Dummy's ace and king of spades took the next two tricks, and the third spade was ruffed by declarer with the six of diamonds. Simon overruffed—but with the king.

Then he led the jack of hearts, dummy put on the queen, East the king and declarer wow. At this point declarer led the 10 of diamonds. Believing Simon could not have the jack of diamonds since he ruffed with the king declarer played the queen from dummy and the start shound out since he ruird with the king de-clarer played the queen from dumny—and East showed out. Now there was no way for South to keep from losing an-other trump trick and two hearts, and the contract was set 500 points.

#### BEHIND TIME

THE ARMY has anounced an antihunger pill. It was developed to destroy the appetite. We always thought that was what the old War II Cration

does not mean they may not have many other fine abilities. If a child has college abilities and interests, the earlier plans can be made the better.

GETTING ALONG WITH PEOPLE BY MILES WHICH DAY ONCE OF PEOPLE BY MILES WITH PEOPLE BY MILES WITH PEOPLE BY MILES WITH PEOPLE BASIC EMOTIONS WITH PEOPLE BASIC EMOTIONS and how they affect gotting along with people, It also tally the difference better the people by the people

treat, butter, meat and potter, toes, and a weekly pay check. Any couple who thinks marriage will run on glamour is heading for trouble. Of course love and glamour are two different things, but many youngsters don't know this. Answer to Question No. 2

bread, butter, meat and pota

YES D NOD

YES | NO |

There is no decided difference, There is no decided difference, according to several investigations. Psychologist Carl Muchison concluded after extended study that criminals run from very dull to very bright, about like people in general. However, he found the brighter criminals usually go in for fraud, and that "The gentlemen's crime is forey." Murderers, burglars effect, are of lower average intelligence than people in general.

Answer to Questlon No. 3

Answer to Question No. 3

No. They should first find out If they have college abilities and interests. They can find this out when the child is 7 or 8 years old. If they have an IQ much below 115, they will find college studies very hard. This
