ALBUQUERQUE, N. M., April Mexico scientist tonight reported discovery of fragments from a meteor which flashed across midwestern skies last Feb. 18.

Dr. Lincoln La Paz, head of the university's institute of meteor ditics, telephoned the Albuquerque Journal from a farmhouse near Almena, Kan., to announce the find.

He said a search party aided by several Kansas farmers found hundreds of meteorite bits scattered over Norton County, coated with a dark brown crust.

They will perform with the combined violin classes of the elementary schools. Others appearing on the program will be the All-City Junior High School Orchestra; the combined elementary glee clubs; junior high school boys' glee clubs; junior high school girls' glee clubs; orchestras of senior high schools and City College; senior high school girls' glee clubs; a cappella choirs and City College A Cappella Choir. Concluding the National Music Week observance will be the festival chorus and orchestra in two numbers with Mary Shouse directing.

#### WOMEN'S UNIFORM'S DECIDED

### **American Legion's Selections Not Easy**

INDIANAPOLIS, May 1. (A) The American Legion's national emblem committee mopped its collective brow today after having completed its most gruelling task—selection of uniforms for the 250,000 women Legionnaires.

The luckless savan whose lot

The luckless seven whose lot it was to decide what the women should wear proved their discretion by choosing not one but two possible uniforms. They left themselves another out by decreeing that the present women's uniforms need not be discarded.

There was a note of relief in the committee's explanation that the selections were not necessarily final. "We're passing this on to the

national executive committee as a recommendation," the committee said.
The 50 men of the executive

group, who prudently turned the job over to the emblem committee last year, will take up the fashion issue during a three-day session opening at the national headquarters here Monday.

The two choices are a shirt-

waist type of dress and an "Eisenhower" jacket with a six-gored skirt. Both would be of blue serge. The present uniform is virtually the same as that worn by men Legionnaires with a skirt eithstituted for

with a skirt substituted for trousers.

D. L. Haffner, committee chairman, of Garrett, Ind., summed up the attitude in which the committee approached its train. proached its task; "The average husband never undertakes to dictate to his wife what she shall wear. We are all average husbands. We hope the women will be pleased."
