A. The Honorary Reserve was established by direction of the President under Section 37 of. the National Defense Act as amended to replace the Inactive Section of the Officers' Reserve Corps abolished by War Department Circular 356, Section VI, par. 42. It constitutes a pool of officers who might conceivably become available in an emergency. It is open to reserve officers whose service has been honorable and who have reached the statutory age for retirement of officers of the regular Army; or who, upon completing a total of 20 years' service in any component of the Army of the United States, apply for transfer to the Honorary Reserve: or who, having become physically disgualified other than through their own misconduct to perform the duties inci-dent to the grades held by them, apply for transfer to the Hon-
