**SENATOR SOAPER SAYS:**

The composer of the sensationally successful, "Nature Boy" still sleeps on the ground, when he might just as well have the \$50,000 made up into a mattress.

Next to putting up a house of the kind that used to sell for \$9000, rebuilding Europe runs into the most dough.

The challenger, Walcott, believes Champ Joe Louis has a weakness. And according to the photos it could very well be that old one, for pork chops.

In the southwest a frame structure containing a store disappeared in the night. Remarkably facile, some of these shoplifters.

In New England those who claim to know say that a clam shortage is in the offing. Whether this is bad or good, we shall be brave.

Wonderful actors, the waiters in dining cars. It is a great art, this looking at the customer's handwriting on the dinner order as if the document were forged.

Forward-looking Columbus (Ohio) now traps speeders with radar. And offenders putting up a beef, one hears, will be outstared by the electric eye.

If you're behind the times, that's good—considering the times.

Q. Why has the Dachshund such short legs? M. O. K.

A. The dog is said to have been bred for short crooked legs so that it could crowd into holes after badgers. The name Dachshund means "badger dog."

Q. What state was famous for its "election cake"? T. R. A.

A. When there was an annual election in Connecticut that state was famous for its election cake, a rich confection served to persons who visited the Capitol on election day.

Q. What became of Emma Goldman, who was deported from the United States some years ago? R. W. T.

A. Emma Goldman died in Toronto, Canada, on May 14, 1940. After having been deported from the United States, she went to Russia but was dissatisfied there and later went to Canada and France. While lecturing in Canada in 1934, she was permitted to visit the United States for 90 days.

Q. How long was the Democratic party out of office in the period immediately following the Civil War? V. L. T.

A. From 1861 to 1865. All the Presidents from Lincoln to Arthur were Republicans. The Democrats came back with the election of Cleveland.

Q. Have art critics explained the famous Mona Lisa smile? D. D.

A. The smile remains an enigma. In writing of this painting, Vasari said that Leonardo employed people to play and sing, and that the painter continually jested while working, in order to keep the lady merry and thus banish that air of melancholy so often seen in painted portraits.

Q. For how many years has it been possible to witness a rodeo? O. F. W.

A. The first public rodeo in the United States was held at Prescott, Ariz., in 1838, and Prescott's rodeo has been an annual event ever since.

2. IS IT AN EDUCATIONAL ADVANTAGE TO WORK THESE 2 THROUGH COLLEGE? YES  NO

3. CAN A PSYCHOLOGIST SUCCESSFULLY TREAT A TROUBLED INDIVIDUAL AS A SINGLE PERSON? YES  NO

4. WHICH TRY HARDER TO IMPROVE THEIR BRIDGE GAME; MEN OR WOMEN? MEN  WOMEN

Answer to Question No. 1  
Women. A survey by the New York Times magazine showed women buy 85 per cent of all books on bridge. Out of 4000 bridge teachers, this survey showed 97 per cent of the teachers are women and 90 per cent of the pupils are women. However, as in all other human achievements, the supreme players are nearly all men, for reasons that are still a scientific mystery.

**MCKENNEY ON BRIDGE**

By WILLIAM E. MCKENNEY

SEVERAL years ago Fred Kaplan of New York City started an ace-showing convention over two-bids that has become quite popular in the east. When partner opens with a forcing two-bid, it calls for one of the following responses:

With two or more aces, bid four no trump. With three or more kings, or the king of another suit, bid three no trump. This bid denies an ace but shows a trick and a half. With one ace, bid the ace. With four or partner's trump and a singleton, or a king and one, jump partner's suit. With anything less than the above you are required to make a response of two no trump.

As an example, South in today's hand opens the bidding with two hearts. North responds with four no trump, showing two aces. South now knows that the worst he can get is a possible finesse for seven-odd, so he immediately bids seven hearts.

The technique of the play also is interesting. The opening lead of the four of hearts should be won in dummy with the five-spot, and the ace of diamonds cashed and a small diamond trumped. Declarer then leads the six of hearts, overtakes in dummy with the queen and ruffs the seven of diamonds. When the king of diamonds drops, declarer has no further problem as he can discard the queen of clubs on dummy's queen of diamonds.

If the king of diamonds had not dropped, declarer might find West with both the king of diamonds and king of clubs. In that case he could run off the whole heart suit and get a possible squeeze on West.

**Adaptability Wins Again**

ALL STUDENTS of the science of society are constantly amazed at the adaptability of the human species. From the blistering heat of Africa to the ever-frozen Arctics, man triumphs over the elements by changing his mode of existence. He adjusts himself to war and peace, to famine and pestilence. He orients his life to new conditions as vast economic changes come about. When the atomic bomb was invented, we glibly talked about living in caves. But, it remains for Mayor Robert L. Crinnian of the bustling town of Oak Park to discover another deviation from the norm in the science of anthropology. He charges that certain people in Oak Park have been living in trees to dodge taxes. They found one platform 40 feet up in a tree with plenty of evidence that it had been enclosed last winter and lived in. "Tax evaders," says the mayor. With this new order of life on earth it behooves us to find a tree. If that wicked tax collector tries to climb it we can throw coconuts at him.—Detroit Free Press.
