Probably so. McKENNEY ON BRIDGE

By Jay Alan

AT A DANCE given recently at the South Hills Country Club in Pittsburgh, Pa. for the purpose of starting a unit of the Children's Cancer Fund in that city, I met some ladies who are members of the South Hills Civic Club. They told me that they have a bridge club.

I asked one of the ladies, the name of the club, and she replied, "We don't have a name."

So today's hand is from the oridge club without a name. Mrs. Elizabeth Kincheloe, a member, wanted to know how it should be bid. I knew this was dynamitethe lady had red hair. I finally said, "With some partners I would open the South hand with one club, while with others, I might bid a heart. With you, I might even bid a spade, because if you were my partner and had

all the spades, you would never let me play the hand."

In my opinion South's best opening bid is one club, following which West will bid a spade. Mrs. "Kincheloe thought that North then should bid one no trump, but I consider two spades a stronged and better bid. Over two spades South will hid three two spades South will bid three hearts, a reverse bid showing a powerful hand.

powerful hand.

North then should hid four clubs. It is not necessary to jump to game. Now South can show control in diamonds with a four diamond bid. At this point North might risk a six heart bid, but six clubs is sounder.

I do not know whether or not the ladies liked my analysis of the bidding, as I understand that when the hand was played at

when the hand was played at their club, it was passed before they reached game.
