No, they are more feminine, according to Psychologist Knight Dunlap. He thinks tomboyishness in girls is due to their healthy desire to be with and carries the consecutors. Dunlap, ness in enjoy the opposite sex. My own observation is, they are usually less conscious of sex as such than the retreating rather prudish kind. During one of the sessions of the recent Ohio State tournament in Cleveland, Ohio, I was kibitzed by John McCormick the new manager of WTAM, and Harold Gallagher, who has been associated with that broadcasting station for more than 20

After the tournament we played a little rubber bridge, during which today's hand came up. In connection with his opening bid, Gallagher said he recollected an old theory of mine that with the declarer-type of hand, you do not need two and onehalf tricks to open the bidding.

If I had opened a club in response to my partner's bid, Gallagher would not have had much

trouble. I gave him a tougher opening, however, in the king of diamonds. Gallagher put on the three of diamonds from his hand, and I continued with the

turn. He led back the king of clubs. Gallagher won this trick in dummy, picked up the trumps, then led the six of spades and

men led the six or spades and played the jack from dummy.

My partner made a good defensive try by refusing to win this with the king. But Gallagher simply cashed the ace of spades and conceded a diamond trick. If he had won the first trick with the are of diamonds, his contract would have been defeated easily.

PHONY RECORDS

ONE OF THE things to which we constantly object is ex-citement about phony records.

We mean, for instance, the kind in which an airplane is pro-claimed as having reached a new altitude mark—but it turns out to be only a record for bind to be only a record for pink planes flown by pilots with blue eyes and a touch of heat rash just over the wishbone.

So please let's not hear any more about a little mild bellowing setting any kind of a record for hot tempered exchanges on Capitol Hill,-Detroit Free Press.
