Q. How long have Holy Years been observed by members of the Roman Catholic Church? R. D. J. rindin dye

A. Holy Years or Jubilees have been observed every 25 years since 1475, and sometimes also on special occasions. The special rite which then takes place is the passage of the Faithful through a special door called the Holy Door, which exists in the four great basilicas, St. John Lateran, St. Peter's, St. Paul's-Outside-the-Walls and St. Mary's Major, in Rome. These doors are always walled up except in the Jubilee Year. The Door of the Vatican Basilica is opened and closed by the Pope in per-son. Pope Pius XII has pro-claimed 1950 a Holy Year.

Q. What is the predominating eye color of the American In-dians? L. K.

A. According to the Handbook of the American Indian North of Mexico, Bureau of American Ethnology, in Indians the color of the eyes varies from hazelbrown to dark brown. The sclera (covering of the eyeball) in the young is bluish; in adults, especially the old, dirty-yellowish. The irls is often surrounded with a narrow but clearly marked ring.

Notwithstanding the wars in though, with a warm testime-the time between, there are nial to the American Indian.

## By Jay Alan MCKENNY **ON BRIDGE**

By WILLIAM E. MCKENNEY I WOULD like to predict that it will not be long before tournament bridge will be played in Midland, Texas. Miss Eva Todd, formerly of Cleveland, Ohio, now in Midland, has started duplicate games in many cities through-out the country, and it will not be surprising if some of her players compete and do well in the big Texas tournaments soon

Safety plays are a favorite topic of mine, and I remember discussing one of them with Miss Todd when I saw her last the the saw her last at Hollywood, Fla. If you hold four trumps, and a good, run-nable five card suit on the side. it does not seem that any safety play is required. That is not true, however. With a four-card trump suit, you must always guard against four trumps being in one hand.

ຣຸດດສ.

In today's hand, for example, if declared does not guard against four trumps in one hand, East will interrupt the running of the club suit. The maximum number of tricks can be made by winning the open-ing lead of the queen of dia-monds with the ace, and ruffing a diamond in dummy with the God employed in all the good and ills that checker life. three of spades. Now the four of spades is led, and when East blays the deuce, declarer plays the seven spot. With this play he protects himself not only against four trumps in one hand, but five.

West will win the spade trick with the nine-spot. If he comes back with the ace of hearts and follows with another heart, de-clarer wins the second heart trick with the king, ruffs an-other diamond in dummy, and True. At least they are not now he can pick up the trumps as important in business, indus- and run the club suit. Thus he makes eleven tricks.
