ider can get the answer to any of fact by writing The Long ress-Telegram Laformation Euresu, St., N. E., Washington 2, D. C. neines three (8) centr for return

ANSWERS TO Modest Maidens

A. Literally, unwritten law. It refers to the common law, as distinguished from the statute or written law.

Q. What cities of the United States have the most and the fewest automobiles per popula-

ion? A. R. E. A. Figures for 1946 for cities above 100,000 population showed that Jersey City., N. J., and Boston, Mass., had the largest population per passenger car, the former 10.8 and the latter On the other hand Miami. had one passenger car for each 2.4 persons.

Q. What Presidents of the United States served without ever having been elected? G. D. R.

D. R.
A. Four Vice Presidents succeeded to the Presidency by reason of the death of the President and were not elected at the expiration of the term of office. They were: John Tyler, Millard Fillmore, Andrew Johnson and Chester A. Arthur. President Truman succeeded to the Presidency on the death of Franklin D. Roosevelt and has not as yet been elected to the office

Q. How long is the Appala-chian Trail? F. P. B.

A. The Appalachian Trail is a 2050-mile hiking route running along the crest of the Appalachian Highland between Mount Katahdin in Maine and the summit of Mount Oglethorpe in north Georgia. It is well blazed and identified by metal markers bearing the symbol of affiliated Appalachian Trail Clubs. The war.

-Gen. Lucius D. Clary, American
military governor in Germany.

trail passes through a region

Make Your House a Home With TELEVISION

COURTESY OF

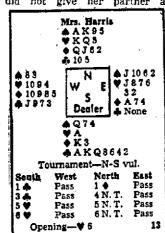

By Jay Alan MCKENNY ON BRIDGE

By WILLIAM E. McKENNEY

FIVE WEEKS in a hospital keep a fellow somewhat tied down. However, bridge players were very good about bringing me material, and my former staff of the American Contract Bridge League came along with a week's supply of hands.

This is the second one, and it is from Mrs. R. F. S. Harris, who is known to players throughout the country because she keeps their master point records, She knows whether you have one point to your credit, or

Most of the players who held the South cards in today's hand arrived at a contract of six clubs, but Mrs. Harris (North) did not give her partner a

chance to do so. When she bid four no trump, and her partner showed two aces with the five heart response, Mrs. Harris bid five no trump asking for kings. South had to bid six hearts to show two kings, whereupon Mrs. Harris bid six no trump.

She won the opening lead of

the six of hearts in dummy. Thinking that she did not have much of a problem, she cashed the ace of clubs, only to learn the sad news when East showed out. She could not cash a second club at this time.

The proper play, which Mrs. Harris made, was to lead the king of diamonds from dummy. She continued with the small diamond, East won and re-turned another heart which declarer won in her own hand with

the queen Now Mrs. Harris cashed three spades and the king of hearts, and on the play of the heart West was squeezed. He could not hold three clubs and two diamonds. If he discarded the diamond, declarer would cash good diamond and once n West would be squeezed. If West discarded a club, de-clarer had the valuable club left in her hand to go over and run all of dummy's good clubs.

TREK TO CITY

THE CENSUS BUREAU reports that the farm population of United States is down to 27,-500,000 or 10 per cent less than it was in 1940. This comes about because the mechanization of agriculture is constantly releasing a larger number of people for city life. The trend has been under way ever since the Revolu-tionary War, but it is being speeded up now by such inven-tions as the mechanical cotton picker, the potato digger and the sugar beet harvester

The shift of population means that future depressions will have less chance to be cushioned by a return of city people to the There simply won't be facilities on the farm to receive them. It means also that more attention should be given to the expansion basic production in things as steel, power, coal and transportation, so that industry will have the raw materials with which to supply an expanding number of jobs. This is a matter to which the President's Council of Economic Advisers might give serious attention. — St. Louis Post-Dispatch.
