out military power. You may rest assured that the American people and government will make sure that it does not do so. —John Leighton Stuart, U. S. ambassador to China.

ELPIDIO

IT IS always easier to frighten people than to get them in-terested in something construc-tive. -Mrs. Eleanor Roosevelt. Q. Where is Inscription Rock?

IT IS obvious to all that a ruthless dictatorship—probably the most powerful the world has ever seen—is launched upon a well-thought out program of destroying all free institutions.

—Paul G. Hoffman, ERP administrator.

ANSWERS TO Modest Maidens QUESTIONS

By HASKINS

Q. How is Aldous Huxley, the novelist, related to the Thomas Huxley? S.T.E. the great

A. On his father's side Aldous Huxley is the grandson of Thomas Huxley (1825-95,) the great biologist. On his mother's side he is the great-nephew of Matthew Arnold, the famous lit-erary critic, poet and essayist.

Q. What rat poison is the best for use in the home? D.M.G.
A. Some authorities claim that the best rat poison for relatively safe use by amateurs is red squill. When using any kind of rat poison, great care must be taken to protect children and animals.

Q. How long was Joe Louis the undefeated heavyweight champion? V.E.S. A. Louis held the title for 11 years and 3 days.

Q. Why was the International Q. Why was the International Date Line placed on the map of the Pacific Ocean- G. S.
A. The mid-Pacific was chosen for this inaginary line because it is far from civilization and the change of date in that particular locality minimizes disruption of the commercial, political and social activities of everyday life.

Q. Does the bee have an organ for storing honey? L. O. Y.
A. A bee has a crop which is about the size of a pinhead. On each trip the insect must visit several hundred blossoms like clover to fill it. It requires some fifty trips from the hive and back again to bring a teaspoonful of honey.

E. F.
A. Inscription Rock is a varicolored sandstone rising 200
feet out of a lava-strewn valley
in Valencia County, west-central New Mexico. It derives its
name from a fancied resemblance to a castle, and from inscriptions carved on its sides by
early Spanish and subsequent
explorers.

Let's Explore Your Mind

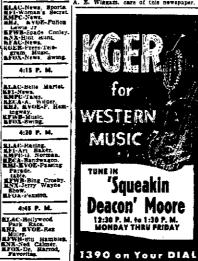

Answer to Question No. 1 Yes. Psychologist L. M. Terman, in his famous study of 1000 gifted children (IQs 140 and higher) had their teachers rate several hundred on "conscientiousness." The gifted boys rated 4.8, the girls 4.0. The unselected average boys rated 6.2. girls 5.4. The smaller the number, the higher the rating.

Answer to Question No. 2 Not time, but learning new things that bury the old. Elaborate experiments by psychologists Minami and Dallenbach cockroaches showed forgetting is due chiefly (possibly entirely) to the blotting out of what we learn by new impressions. Their animals rememsions. Their animals remembered almost perfectly and in-definitely if kept in a state of practically complete rest, so they could not learn anything new to bury the old. Other ex-periments indicate this is just as true of human beings.

Answer to Question No. 3
Yes, they did pretty well in World War I, better in World War II and will be more successful from now on. Psychologists H. Feldman and A. A. Maleski gave a test to 50 AWOL's and 50 non-AWOL's on such things as having been fired from jobs, being over-protected from jobs, being over-protected from jobs, being over-protected frinking, sex relationships, etc. The Test, if given at induction, would have separated them with about 80 or 90 per cent success.

If you would have separated them with the protection of the protection Answer to Question No. 3

2014 EAST ANAHEIM Established Over 21 Years

By Jay Alan MCKENNEY ON BRIDGE

By WILLIAM E. McKENNEY MIAMI, Fla., will be well rep-

resented at the summer session of the national cham-

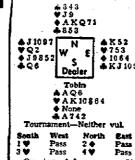

session of the national championships tournament, which gets under way at the Hotel Stevens in Chicago July 31. The Miami unit will be host to the winter session of the nationals the first week in December.

One of the Miami players who is sure to be on hand for the Chicago nationals is E. J. (Ned) Tobin, who was the first secretary of the Arherican Contract Eridge League. Although Ned is getting on in years, he is still active in bridge in Florida. A few years ago Ned and I won the southeastern sectional open pair championship, and he helped us to win it with a very fine play on today's hand.

The jack of spades was a favorable opening. Ned (South) with the queen but he

The jack of spades was a favorable opening. Ned (South) won it with the queen, but he saw now that he still had a spade loser and two club losers. And he had no assurance that he might not lose a heart. Of course, he could bang down the ace and king of hearts and try to drop the queen, but that might leave him with three club losers.

Ned made a rather unusual sacrifice play. He led the four of

hearts. West had to go in with the queen. If he had not, Ned would have won the trick in dummy anyway.

West led back a spade, Ned won with the ace, led a small heart over to dummy's jack and cashed the ace, king and queen of diamonds, discarding three of his losers. Then he led a club to the ace, picked up the other trump and conceded another trick, making five-odd.

NEW ATTITUDE

IF THE REPUBLICANS take charge of the administration next year, as they fondly hope, there will be no clean sweep of the New Deal legislation of the last 16 years. There will be important changes—improvements in administration, changes in laws that have shown themselves defective, new legislation to meet new conditions in a changing world, a generally new attitude toward the probler's of business and taxation, and a maturing and stabilizing of foreign policy.—Kansas City Star.

Carnival

By Dick Turner

LONG BEACH (CALIF.) PRESS-TELEGRAM WEDNESDAY, JULY 21, 1948

"Is there some window around here where I could bet on a horse to come in last?"

SENATOR SOAPER SAYS:

While Gable !:issed the blonde goodby, the great ocean liner on the ceiling, which just about exhausts the unutilized advertising space except for the eye-catching bare midriff.

Today, a "city-wide shakeup" can mean almost anything, from shuffling a dozen police inspectors to the results of a Jap earthquake as revealed in the photos.

Baffled psychiatrists examine a Chicago boy who broke into 10 homes, taking a bath in each. In the first place, are they sure it's a boy?

No, children, no, a "show cause" order doesn't mean that the judge has to be show and people are 80 per cent what causes John L. Lewis. "Olivia De Havilland of the movies believes in astrology because the moon affects tides, when the moon affects tides, and what causes John L. Lewis." Any further questions?
