ANSWERS TO Modest Maidens QUESTIONS

By HASKIN A reader can get the answer to any estion of fact by writing the Pressiegram Information Bureau, 315 Eye N. E. Washington 2, D.C. Please close three (3) cents for return post-

Q. When is the roundup at Chincoteague, Va.?—H. C.
A. Chincoteague Island is the original home of the Chincoteague ponies which still roam the island. On the last Thursday of July each year a "pony-penning" is held. Besides the rounding up of the wild ponies, there are pony races and a water carnival. Chincoteague is a famous hunting and fishing resort of the Atlantic Coast.

Q. Are the sun's rays most penterating in the middle of the day?—M. E. J.

A. When the sun is high overhead, the rays are most penterating. A two-hour exposure to the sun in the early morning or in the late afternoon may give less of a burn than a half-hour at midday.

Q. How many political parties are there in England?—B. O. S.
A. Eleven parties are represented in the House of Commons, by far the most important being the Labour and Conservative Parties. Minor parties include the Liberal, Independent and Ulster Unionist.

Q. Do insects migrate?—O. B. B.

O. B. B.

A. Some insects migrate but with less regularity than the birds or the fishes. Best known of these are the migratory locusts or grasshoppers which set out in swarms when they become too populous in their breeding grounds. Certain dragonflies and butterflies also swarm.

fed from dummy, trumped with the deuce of hearts, and the jack of spades overtaken in dummy with the ace. The eight of diamonds was trumped with the three of hearts.

Now Lyons led the five of hearts, West put on the tenspot and the trick was won in dummy with the king. The queen of clubs was trumped by declarer with the six of hearts, the queen of spades was cashed, then the king of spades was led.

West had the queen, jack and eight of hearts, while dummy had the nine-four of hearts and ten of diamonds. Lyons was left with the ace and seven of hearts. If West trumped the king of spades with the eight of hearts, Lyons would overtrump in dummy with the nine. If West trumped with the jack, Lyons would discard the ten of diamonds, and West would be forced to lead from the queeneight of hearts into Lyons' tenace position.

TOURNAMENT bridge is becoming popular throughout
the world. There is a very good
group of players in Kingston,
Jamaica. As a matter of fact,
one of the Kingston players was
a member of the team that tied
for the national women's teamof-four championship last year.
Frank E. Lyons, one of the
most active members of the
tournament group there, sent
me today's hand, and it is one
of the prettiest hands I have
seen in some time. Doesn't it
look as if West must make two
heart tricks? Well, here is the
way Mr. Lyons made six hearts.
West opened the king of diamonds, which was won in dummy, and the three of clubs was
led to declarer's ace. Lyons
then led the four of spades and
won it in dummy with the tenspot. On the king of clubs he
discarded his four of diamonds.

The following, an excerpt from the New York Herald-Tribune of July 1.

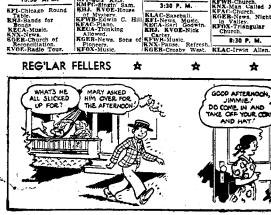

"A tiny metal device that serves nearly all the functions of a conventional vacuum tube, and holds wide promise for radio, telephone, and elecfronics, was demonstrated vesterday by Bell Telephone Laboratories scien-

tists who developed it. Known as the "transistor" the device is about the size of a shoelace tip. It works as an emplitier and an oscillator, but has no glass bulb, tila-mant or vacuum, and does not heat up. Yet a conventional radio, with all of its tubes replaced by transistors, worked perfectly for newsmen and

scientists at the Bell Laboratories, 463 West Street." Yes, Bell Laboratories are constantly at work to create better sound at less cost through the medium of scientific research. Western Electric is their only hearing aid.

Why not be sure of the best in sound by having your new or used Western Electric Hearing Aid serviced, tested, and electronically adapted to your requirements, right here in Long Beach. Yes, we can measure adjustments from a salesman's chart but internal changes by a qualified electronic technician.
