head is cut off? L. E. D. A. The ciervous system in rep-tiles is so poorly centralized that reflex actions often occur in many parts of the animals for some time after the head has been severed and other parts dismembered. The less and aws of a turtle often move more than 24 hours after the head is cut from the body.

MCKENNEY By Dick Turner **Modest Maidens** ON BRIDGE

BY WILLAM E. MORENNEY Expert tournament, players come from all walks of life. Some of them spend most of their time playing bridge, while others are business or professional men who have much less

sional men who have much asse-time to play. For instance, Alexander Weiss, of New York City, is kept pretty-busy between his mail order business and his grandson. Nev-ertheless, he found time to play in the Vanderbilt Cup Tourna-ment this year and won the tenthe

trophy. Weiss sent me an interesting hand which I am giving you to day. He won the opening lead of the five of spades with the king, then led a small heart to dummy's king, intending to play

The spade bid by East, and the fact that he had held three hearts, led Weiss to the conclu-sion that East could not have sion that East could not have many clubs. He took another round of hearts, then cashed the ace and king of clubs, dis-carding a small diamond from his own hand. Now he led the jack of clubs from dummy, and when West did not cover, Weiss diamond his other small disdiscarded his other small dia-
