## ANSWERS TO QUESTIONS

By HASKIN ader can got the abswer to any of fact by writing the Fras-in Information Bureat, 318 Eye E., Washington 2, D. O., Please three (3) casts for return postclose i

Q. Please distinguish between joint resolution of Congress and a concurrent resolution. A.

A. A joint resolution is the work of both houses and requires the approval of the Presi-cent (except in cases where it is used to submit proposed consti-tutional amendments for ratification) and has the force of law just as other legislation. In fact, joint resolutions are num-bered as Public Law No. ----- in - in the Statutes at Large. A con-current resolution requires the approval of both houses, but not of the President unless it contains matters of legislation. It is not public law, but deals with matters over which the two houses have concurrent jurisdiction.

Q Are the Pribilof Islands off the southwestern coast of Alaska the only land areas inhabited by fur seals? J. D. L. A. According to a report of the Fish and Wildlife Service these islands are thought to be the only land the fur seals touch. They have been a furseal reserve of the United States since 1868.

Q. In the Middle Ages was there particular significance in the position that a knight car-ried his spear? V, B.

WE'VE got to defeat commu-nism and now is the time ing man, and his nature to do it. America cannot and baiks at lack of understanding, must not fail this first real test unnecessary or harsh discipline, unnecessary or harsh discipline, and at inconsiderate assumption of privileges, by his seniors. friendship. -Gen. Omar Bradley, Army Ghiof

shape? I. M. same LATELY I have taken to farm-ing in a modest way. I tions toward political and economic ruin on a crime that does not involve an anti-Communist

-Premisr Alcide do Gasperi of -Winston Churchill. Itaty.

A. If he kept the point of his spear forward when entering a strange land he came as an enemy; if he carried the spear

A. The eggs of most wild birds resemble the domestic hears egg in shape. However, some are very different in appearance. The egg of the plover is pear-shaped and the owl's egg is round. The sand grouse produces an egg that resembles a cylinder in shape.

## **Modest Maidens** ON BRIDGE

By WILLAM E. MORENNEY This is the third of a series of articles, based on Fred L. Karpin's booklet, "The Point-Count System of Bidding in Contract Bridge.

It has been difficult save Mr. Karpin; to interpret the precise significance of jump bids, but with the point count system, the true meaning of jump bids is no longer ambiguous. To illustrate, longer ambiguous, To illustrate, he gives today's hand, taken from the national championship last year at Atlantic City, N. J. In most cases, South bid two clubs over North' bid only three spades. South, who felt that he had shown the full value of his hand with the bid of two clubs, passed the three spade bid. Karpin points out that it is im-Karpin points out that it is im-possible to miss game on the hand when using the point count system. South has only a count of 10 and therefore must pass, as it takes a minimum of 13 points
