N. P. R. A. "Civil rights" is a term applied to "those liberties pos-sessed by the individual as a membr. of a state; more partic-ularly, those liberties guaran-to the individual in the state against encroachment by his government. The most im-partant of these rights is em-bodied in the clause which pro-hibits the government from de-priving anyone of life, liberty or property, without the due process of law."

Q. When was the first Army post annhange established? L. P., A. Though the practice of sell-ing food and other commodities to troops is an old one, and in this country goes back to the Revolution, the first post ex-change was not established until 1895. Post exchanges came into existence with General Order 46. July 25, 1895, to curb the abuses of itherant traders who prayed on the soldiers.

Q. What was the popular vote for Franklin D. Roosevelt in the last four elections? J. F. S. A. The popular votes polled by President Roosevelt were: 1332 22,821,857: 1936, 27,751,597; 1940, 27,243,466; 1944, 25,602,505.

What is the windlest city in What is the windlest city in the United States? C. M. D. A. It is not possible to state definitely which is the windlest city, although this distinction is sometimes popularly given to Chicago. The Weather Bureau says that undoubtedly the highest average annual wind ye asys that undoubtedly the highest average annual wind ve-locities are in the Great Plains States, probably centering around Oklahoma or Kansas.

Q. What two points in the United States are fartheat apart? N. R.

A. The two points in the Unit-ed. States which are farthest apart are Cape Flattery, Wash, and a point on the Florids coast south of Miami, an airline dis-tance of 2835 miles.

Q. Do bats always flap their wings? H. D. N. A. Bats cannot fly with wings motionless, but flap them con-tinuously at the rate of about. 15 flaps per second.

Q What are "civil rights"? N. P. R.

Modest Maidens ON BRIDGE By WILLAM E. MOKENNEY

WIIS is the fourth of a series of articles based on Fied I. Karpin's booklet, "The Point-Count System of Blidding in Contract Bridge."

The particular feature in this booklet dealing with the applica-tion of the point-count system for no trump bidding will also be found in other authors' books

be found it other authors' books. According to this theory, for an opening one no trump bid you must have from 18 to 18 points; for two no trump you must have from 22 to 24 points. You will note that there is a gap on hands of 19, 20 and 21 points. With these counts an opening no trump bid, cannot be made, because such hands are

You must therefore open with a suit bid.

suit bid. If partner makes a one-over-one response, you then jump to two no trump to tell him that you hold 19 or 20 points. Re-member that your partner is supposed to have a minimum of 6 points to keep the bidding onen

open. If your count is 21 points, If your count is three no trump If your count is 21 points, jump directly to three no trump over partners one-over-one re-sponse. This takes care of the possibility that your partner may have shaded his response one point. Today's hand illustrates an "in-between" hand. South has a count of 20 points with one re

count of 20 points with one no trump. His proper bid is one club. With a count of 7, North club. With a count of 7, North responds with one heart, and South jumps to two no trump to show 19 or 20 points. North correctly raises. A little care has to be exer-cised in the play. On the open-ing lead of the 10 of spades,
