THIS IS the fifth of a series of articles based on Fred L. Karpin's booklet. The Point-Count System of Bidding in Contract Bridge."

In today's article we deal entirely with the jump shift bid on the part of the original bidder. We all know that a jump shift bid by partner is a game de-mand bid; but expert players do not always treat that type of bid by the original bidder as an absolute game demand, al-though I think they should. In this hand, South has a count of 20 points—three for the king of spades, 10 for the ace-king queen of hearts and the fifth heart, and seven for the ace-queen jack of diamonds. He opns the bidding with one heart, and his partner makes open the bidding with one no trump, for which he must have at least six points. In the point count system, a We all know that a jump shift
