Answer to Question No. 1.

That the partners are willing to see their situation exactly as it is, then study the causes that have destroyed their happipness. Maybe Jack's job or business has become too absorbing, or Mary has become too ambitious socially, or they clash about training the children. If they won't face the facts the outlook is pretty hopeless, but once they do, in good spirit, they are back on the road to happiness.

HEARING

MCKERPEY ONBRIDGE

BY WILLAM E. MCKENNET

I have often said that the best bridge in the country is played in the restaurants in New York. Between sessions of a tourra-ment, or after the evening ses-sion, the gang will drop in at a restaurant, and of course bridge hands are the topic of converse. At Trader Tom's steak house

in New York the other night, we were talking about false-card plays, We all agreed that the false-card in today's hand should not have fooled anyone. It was further agreed that game should not be made, either in a suit or no trump, but nevertheless it is the type of hand on which a game should be bid.

West opened the eight of diamonds and East won with the acc., South played the queen.

Pass

Pass

Bear in mind that North and South had bid both spades and hearts. The diamond opening looked good to East, and he was anxious to establish the suit while he still had the ace of clubs for re-entry. There was a possibility that he had the heart suit stopped and hains wold in possibility that he had the heart suit stopped, and being void in spades, he hoped that his partner had that suit stopped.

With all this on his mind, he let the queen of diamonds tool him and came back with the seven of diamonds. Of course, declared the seven of diamonds. Of course,

declarer won this trick with the declarer won this trick with the king, ran five spades, four hearts and the lack of diamonds, and made five no trump. East should have realized that declarer held the king-queen-lack of diamonds. Otherwise his partner would not have opened the diamond eight. It was easy to count that the eight was not fourth-best. Therefore it must have been the top of nothing which meant that of nothing, which meant that the three missing honors were in the South hand.

If he had correctly read South for the king and jack of dismonds, and recalled South's heart bid, East would have known that he should lead back known that he should lead each the ace of clubs. That would have brought a high club from West, clubs would have been continued, and, before South got in the lead, East and West would have cashed four clubs and the ace of diamonds, setting the contract one trick. the contract one trick.
