ANSWERS TO QUESTIONS

Carnivai

By HASKIN

Q. What town was known as the pirate capital of the Spanish Main? T. O. R.

A. Basseterre on the island of Tortuga, about 10 miles off the north coast of Haltl, was in the late 17th and early 18th centuries regarded as the capital of the pirate kingdom. British and French captured the town from each other nine times and it was finally razed. Today there is only a small village on the site.

Q. What does JANGO stand for? N. N. A. It stands for Junior Army-Navy Guild Organization, Jan-goes are the teen-age daughters of officers of all branches of the armed forces who helped in war work in the national capital. One popular activity of the or-ganization is junior nurses aid There is a branch in Tulsa. Okla.

Q. When and where were the 5-cent pieces coined that had on them a three-legged buffalo? B. B.

A. A few of the buffalo nickels coined at the Denver mint in 1937 appeared to have threelegged buffalos. This hap-pened when a small piece of dirt or grease got on the die. The leg which appeared to be missing was the right foreleg.

Q. Where were the first equestrian statues in the United States? L. C. W.

A. The first equestrian statue erected within the boundaries of the United States was that of George III in New York City. The second is usually said to have been the statue of General Jackson in Lafayette Square, Washington, D. C.

Q When did Steve Brodie make his spectacular leap from the Brooklyn Bridge? E. R. Y. A. Steve Brodle jumped from Brooklyn Bridge, July 23, 1886. He undertook this feat as a result of a bet.

Q. What nation controlled traffic upon the River Danube before World War II? L. McK. A. From 1919 to 1939 an international commission regulated river triffic on the Danube.

Q. How fast do radar waves travel? C. R. T. A. Radar waves are electrical in their nature and travel with the speed of light, which is

Answer to Question No. 1

Yes, as a rule on public questions, although on matters of dress and social conventions. women are more radical than men. A number of studies have shown that on such controversial questions such as government ownership, radical labor pro-posals, etc., more women than men take the conservative, cau-tious attitude. This does not hold true on child labor and other social welfare legislation.

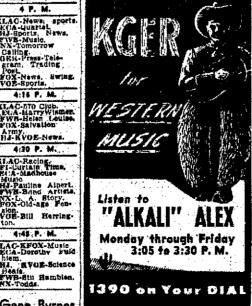

Answer to Question No. 2

No. As Princeton U. Dean Christian Gauss said recently, "The truths of democracy are not difficult to understand. They are only difficult to practice. They are the very simple truths of the Christian religion and the brotherhood of man." It takes a university course in according university course in economics to understand communism and socialism. Huge volumes from Karl Marx to Harold Laski have been written about them. But when a child has learned the Golden Rule and taught the knows but lives democracy and

By WILLIAM E. MOKENNEY

BRIDGE FANS are accustomed to reading about the winning of bridge championships by Mrs. Peggy Golder and Charles J. Solomon of Philadelphia. However, some of the fans may not know that these champion players are now Mr. and Mrs. Solomon.

They kept up their winning streak by capturing the Adirondack mixed pair title at the tour-nament held recently at the Adi-rondack Inn. Sacandaga Park, N. Y. Mr. Solomon, by the way, has a bridge show on television in Philadelphia, which I under-tend is proving cults interest. stand is proving quite interest-ing to the bridge players of that

territory.

Mrs. Solomon helped to win the Adirondack, mixed pair championship when she executed a very neat end play in today's hand. On the opening lead of the five of clubs East played the jack and Mrs. Solomon (South) refused to win the trick. East returned the queen of clubs. Again Mrs. Solomon held off with the ace and West played the deuce. Now came the seven of clubs, South won and West played the eight.

Mrs. Solomon then cashed her

four top spade tricks and the ace and king of diamonds. Next she led her fourth club and threw West in the lead. West cashed the fifth club, and then he had to lead away from his king of hearts, which gave Mrs. Solomon her ninth trick.

found the aggressives could be toned down by repeated defeats by stronger mice, while the pacifists could be made more aggressive by training. This agrees with what we know of humans. HOW TO WIN AN ARGUMENT By Abert Edward Wiggam, D. Be.
