you one of those impossible people who go through life, day after day, worrying about the same old stale worries?

Don't you realize that in the fresh bright world of today you can't go around wrinkling your brow over the problems that befuddled your ancestors?

Wake up and worry! Worry

Wake up and worry! Worry about something new and different. You may not know it, but your friends judge you by the things you worry about.

It isn't enough anymore just to worry about food, clothing and shelter, and keeping your children out of jail. People were worrying about those things yesterday and a hundred years ago. Rid your mind of those old, tiresome motheaten worries Surprise your acquaintances by springing a sensational new

How can you do this? It is very simple. You just join the Boyle worry-of-the-month club.

The average man is too pre-Boyle worry of the month club.

The average man is too preoccupied with the problems of
daily living to think up impressive new worries. He is in a

worry rut. He is just an ordinary worry wart. But every man has within him tremendous possibilities for worry—he can become a worry giant. He only needs to have his hidden engergies unleashed.

This is what the Boyle worry-of-the-month club undertakes to do. Every four weeks our board of experts looks over the world situation and picks out a tan-Sen. Soaper Says: of experts 100ks over the world situation and picks out a tantalizing worry most people never thought of. We will send you this worry on a trial basis—without obligation. One of the best features of the Boyle worry-of-the-month club is that we guarantee to send you a worry that you as an individual positively can do nothing about. We believe that is the only kind of a worry that brings enduring satisfaction. Because certainly there is no fun in worry about things you can solve your-

Now there is a good simple honest worry for a hostess to spring on her guests at a cocktail party. The more they drink the more they will think about this worry. It will take their minds off any personal worries they have been frittering away the time with.
