A. Although orchids are considered rare, the orchid family is one of the most numerous groups of flowering plants, Some 140 species occur 140 species occur in America north of Mexico and they include many common wild flow-ers. The orchids sold by florists are among the rarest and most expensive of cut flowers.

Q. Where did the sarong originate? B. U. L.
A. Sarong, derived from the Malay "saron," is the name of the typical garment worn by both sexes in the Malay Archipelago, Ceylon and parts of India. It consists of a long strip of cloth worn as a petticoat and tucked in around the waist. The men sometimes add a sort of vest or short jacket and the women a bandage of cloth around the bust, under the

lated? V. C. L.

A. Congress is authorized by the Constitution to establish the standards of weights and measures. However, Congress rarely exercises this right, leaving such legislation mostly to the individual states. It is for this reason that there is so much variation in weights and measures from state to state.

IN THE Pentagon Building in Washington there are peo-ple who are men of action, of military trade, who are preparing a new war, working out plans for 50 years ahead.

-Rita Colton, New York television actress.

AMERICA is not a melting pot at all, it is a symphony. The precious groups that have come to these shores must not disappear into an assimilative caul-dron, they must retain their uniqueness which has come out of their special heritage.

—Dr. Abram Leon Sachar, presi-

dent of the new Brandeis University.

TODAY our national life swings along on a steady cadence of national optimism. The tragic era of confusion, extravagance, cruel economic dislocation and costly administrative bungling is at an end.

The gap between what we be-lieve as American ideals and what we practice is creating moral dry rot within us. . . . moral dry rot within us.
We must act now because the
mental health of America is
threatened by this gap.

torney who was a member of President Truman's Committee on Civil Rights.

#### Sen. Soaper Says: By H. V. WADE

Not only do the Russians not have what it takes to put on a war, according to the experts, but there is a strange disinclination in our midst to lend-lease them the stuff.

Marshall Plan steel from Europe is being sold in America, we are astonished to hear.
And anyone who ever bought his own hat at a rummage sale will know the feeling. A Missouri farmer turns up cached loot of \$100,000 in old

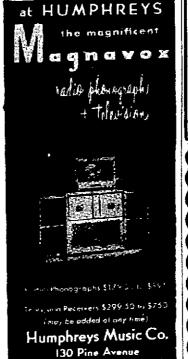

categorium of \$100,000 in old coins and currency on his place. It now only remains to expand government price support to guarantee this as an annual yield. Careful scrutiny of 163 cam-

paign speeches selected at dan-dom reveals that regardless of the winner the bulwarks of something will be preserved. "Government's 'planned potato' to cost \$39,500,000"—item. What's the matter with the unplanned potatoes? If they're mashed, who could tell?

Among those interested in "soft spots" developing in the wholesale price structure should be all who are planning to buy

a thousand miles of textiles. The signs point to one of the harder winters. The moss is thick on the oak; in New York

a charity patient is found to have her clothes lined with \$128,000. (North American Newspaper Alliance) FOR RECORDS It's Wasson's . . of course 3750 Atlantic 4-9546 Open Evenings Till 9 P. M. Except Tuesday

HER BOY FRIENDS? YOUR CHWINN.

Answer to Question No. 1

Boys, there are a good many things in feminine psychology I don't know, because the psychologists have not found them out. But I surmise it is mostly childish immaturity and desire to swell her importance in her present date's opinion. Since she is new at the dating business these experiences probably loom large. Anyhow, you might try matching your experience with your girl friends with hers.

Answer to Question No. 2 Not unless interpreted for

your particular case by a psychologist familiar both with tests and jobs. If you had an IQ score of 120, "salesmanship" 95, "personality" 27, you might suppose 27 cm. pose 27 on personality meant very low and 120 on IQ meant very low and 120 on by meant very high when, for all you know, it might mean the opposite. Yes, with the individual's consent. As pointed out by Dr. A. C. Ivy, in Science, soldiers, sallors and many civilians have

sailors and many civilians have volunteered for medical experiments as have prisoners condemned to death. But for the use of such prisoners for medical experiments by Col. R. P.
