

Solon Quit G.O.P. Post to Campaign

WASHINGTON, Oct. 23. (AP) Sen. William E. Jenner (R-Ind.) said today there was "no connection" between his "resignation" as head of the G. O. P. speakers bureau, and the activities of his Senate elections subcommittee.

Jenner asked to be relieved of his G. O. P. post last night, only a few hours after his subcommittee had accused Robert S. Kerr, Oklahoma Democratic Senator, of mismanagement of the Oklahoma Democratic primary.

Jenner said he wanted to be relieved of the speakers bureau so he could take an active part in the Indiana political campaign. Republican officials in Jenner's home state said he had been planning "all along" to stump for G. O. P. nominees.

Jenner's move climaxed a series of rapid-fire political developments. Within four hours: 1. E. Nelson Deranian, counsel for the subcommittee, reported with Jenner's permission that preliminary investigation showed Kerr spent \$65,500 in his primary campaigns last July.

2. Sen. Francis J. Myers (Pa.) the lone Democrat on Jenner's three-man subcommittee, immediately branded the report "political." He said it was "strange" that Jenner released it.

3. Deranian said Jenner may have a statement today on a similar investigation in the bitterly-fought Democratic Senatorial primary in Texas.

4. Jenner asked to be relieved as chairman of the G. O. P. speakers bureau. He said he had been urged to campaign for the Indiana Republican ticket by G. O. P. gubernatorial candidate Hobart C. Freighter, who defeated Jenner for the Hoosier state nomination.

SPACE SHIP DANGER FIGURED Meteor Might Hit One Once in About Two Years

NEW YORK, Oct. 23. (AP) A space ship has a 50-50 chance of being drilled by a shooting star, or meteor—about one every two years of flight time.

These calculations are made by G. Grimmering, of the Douglas Aircraft Co., Santa Monica, Calif., and released today by the Journal of Applied Physics.

For this rate of risk, Grimmering says, the ship should be flying at 300 miles or more above the earth.

Lower down, the atmosphere would slow the speed of shooting stars to burn them, and reduce the dangers.

He figures that for a ship, making a flight of only 20 hours in space, the chances are 1000 to one against its being hit.

These meteors are particles of iron or metal, ranging in size from less than a pinhead up to 20 tons.

The latter are so scarce as to be considered no risk. There are, Grimmering says, about six a day, weighing between 100 and 200 pounds, that get through the air to the earth's surface.

Their size is not important, but their speeds average 30 miles a second, and some go as fast as 50 to 60 miles a second.

G. O. P. 'Reaction' Hit by Barkley

BALTIMORE, Oct. 23. (AP) The Republican party was labeled last night as a "raucous voice of reaction" drowning every voice of liberalism by the Democratic candidate for Vice President, Sen. Alben W. Barkley.

The Senate minority leader told an estimated 2400 at a Democratic rally that the Republicans haven't had a man in 76 years—and the 80th Congress is no exception.

Barkley declared that when the Republicans are asked about their specific program, they reply in unison: "We have unity. So has the Dead Sea. It is the unity of stagnation."

Barkley charged that the G. O. P. repudiated the late Wendell Willkie "and broke his heart because he was a liberal."

Historic Church Platform's 300th Year to Be Noted

CAMBRIDGE, Mass., Oct. 23. (AP) Descendants of New England Puritans will gather here next week to commemorate a historic monument which influenced the whole American system of democratic government.

It is Congregationalism's "Platform of Church Discipline," adopted just 300 years ago this month—and still going strong. The anniversary will be held Wednesday.

From the Cambridge platform grew New England's unique town meeting, which to this day gives the humblest voter his say on how community funds will be spent.

Historians say the 1648 document also held the seeds which came to fruition in the American Revolution 130 years later.

But the little group of church leaders who worked two years to frame the Cambridge platform probably did not look so far ahead. They were too busy setting up a new type of church government.

Based on the two main principles of historic Congregationalism, the document gave the individual, the church and the combined churches fellowship.

The principle of local church autonomy still is widely practiced throughout the country, not only by churches descended from the Orthodox and Unitarian wings of New England Congregationalism, but by the Baptists, Universalists, Disciples of Christ and others.

Rev. Henry Wilder Foote of Cambridge, church historian, estimates: "Today nearly half of the whole number of American Protestants belong to churches which are Congregational in policy."

Navy Sunday to Be Observed

Navy Family Chapel, 451 W. Ocean Blvd., will observe Navy Sunday tomorrow at its 3 p. m. service. The chapel will be open for prayers on Navy Day, Wednesday. It is announced by Chaplain Miles Wetherell Rinear, who will deliver his first address at Navy Family Chapel as its minister, succeeding Chaplain Truman P. Riddle, retired.

Chaplain Rinear will speak on "The Church is Like a Ship." The mixed quartet will sing "America the Beautiful" and the choir will sing the anthem and lead in the Navy hymn, "Eternal Father, Strong to Save."

"The Christian church has always tried to minister to Naval personnel from the earliest days of our national history," Chaplain Rinear explained. "In 1574, a Rinear ancestor, the Church of England's Master Woffall, left his good wife and a comfortable living to sail under Queen Elizabeth's Captain Frobisher, as chaplain of the fleet. Chaplain Woffall celebrated the holy communion for the officers and men of the fleet on land, the first Protestant service ever held on North American soil."

"The first Protestant service on the Pacific Coast was held in 1579 at Drake's Bay, near San Francisco, by Rev. Francis Fletcher, who was the chaplain of Sir Francis Drake's flagship, the Golden Hind," said Rev. Rinear. "Chaplains also accompanied the ships which brought over the colonists which started in 1585, and Jamestown in 1607. In the American Revolution, chaplains were assigned to the ships in the first American squadron of men-of-war which put to sea under command of Commodore Esek Hopkins in 1776. And the tradition has come down to the present, his heroic sacrifice of the immortal 'four chaplains,' Jewish, Catholic and Protestant, who gave their lives that others might live."

Chaplain Rinear is a native of Vineyard Haven, Mass. He is a graduate of Brown University and Episcopal Theological School, Cambridge, Mass. He was ordained in March, 1944, and served as minister-in-charge, northwest field, Diocese of Nebraska, 1943-45; rector, St. Peter's Church, Jamaica Plain, Mass., 1945-46. In 1947 and until he was assigned to Long Beach, he was assistant at St. Paul's Cathedral to Very Rev. Eric Foley, dean of the cathedral, now bishop.

Free Lectures. Gilbert N. Holloway Jr., of Mystic Brotherhood will give two public lectures tomorrow and Tuesday at the Masonic Temple, 835 Locust Ave. Tomorrow's subject at 8 p. m. will be "The Power of Faith, Confidence and Belief." On Tuesday the subject will be "The Spiritual Psychology of Creative Living."

Special Address. Dr. Katherine Whiteside Taylor, authority on family relations, will give the third of the special Sunday evening addresses at First Friends Church, Atlantic Ave. and Ninth St., according to Dr. Donald B. Spitzer, pastor. Dr. Taylor is a member of the Society of Friends.

MOTHERS REASSURED ON DRAFT

General Says Boys Will Get Good Treatment

YORK, Pa., Oct. 23. (AP) The mothers of America had top level Army assurance today that youthful draftees will be treated as persons "of individual dignity and feelings."

Gen. Jacob L. Devers, chief of Army field forces, sounded this reassuring note in a speech last night before the state convention of the American War Mothers.

Gen. Devers, a native of York, told the mothers that the peacetime Army is going to be considerably different from the army you have heard described. He painted this picture of what will happen to young recruits:

1. He will be sent to a post "as near home as possible."
2. His instructors will try "to establish a personal relationship with the incoming recruit."
3. He will be explained "the reason for everything he does which is new to him."
4. No matter how or when he arrives, someone will meet him and he will be given "a chance to ask questions."
5. "His uniforms are individually fitted."
6. The Army will insist "that he write home."

Gen. Devers said "American sons are marching away again, not for the winning of a war, but for the preservation of the peace."

Red Quiz Recess Follows Uproar

SAN FRANCISCO, Oct. 23. (AP) The Congressional investigation of communism in west coast maritime unions was in recess today after a tumultuous one-day stand.

Striking maritime union members picketed the hearing, which resulted in a threat of contempt action against two union leaders—and a six-week recess.

Reps. Charles J. Kersten (R-Wis.) and O. C. Fisher (D-Texas.) of the House labor and education subcommittee, conducted the hearing.

At the conclusion, Kersten said he would recommend action for contempt of Congress be filed against Hugh Bryson, head of the C. I. O. Maritime Cooks Union, and David Jenkins, California labor school director.

Neither would answer the question: "Are you now, or have you ever been a member of the Communist party?"

STUTTGART, Germany, Oct. 23. (AP) Mrs. Franklin D. Roosevelt today told a meeting of German women that sovietism must not be allowed to fill the vacuum left by Nazism.

In a speech prepared for delivery in Germany to a meeting sponsored by the League of Women Physicians, the widow of America's wartime President declared sovietism must not be allowed to "carry on any of the same methods which created the fear and hatred of the other systems."

The words nazism and facism will forever be linked upon with horror by the free peoples of the world and sovietism must not be allowed to fill the vacuum, she declared, adding, "If a system is good let it be voluntarily adopted by other peoples to their need, not imposed by foreign pressure."

Congress-control Skirmish Costly

WASHINGTON, Oct. 23. (AP) Republicans and Democrats alike are pouring big money into a few key states in the red-hot fight for control of the next Congress, it was disclosed today.

Official reports filed with the clerk of the House showed that the total receipts of the Republican Senatorial campaign committee are \$167,578 and expenditures \$164,650. The function of this committee is to help G. O. P. candidates for the Senate.

The corresponding committee of the Democrats has received only \$35,756 in contributions and spent \$32,263. But the Democrats have had considerable help from labor organizations such as the C. I. O.'s Political Action Committee.

The C. I. O. P. A. C. reported that it has given \$1000 to Manley Wilson, Democratic opponent of Sen. Guy Cordon, Republican, in Oregon; \$2500 to Gov. Lester C. Hunt in Wyoming, who is opposing G. O. P. Sen. Edward V. Robertson; and \$5000 to Sen. James E. Murray (D-Mont.).

Ickes Assails Dewey 'Team'

GREAT FALLS, Mont., Oct. 23. (AP) Harold L. Ickes declared last night that Thomas E. Dewey's "team has knocked off transmission lines to carry low cost power to waiting customers in Arizona and California."

"They have done the same thing in Nebraska and the Dakotas," the former Secretary of Interior asserted in a speech broadcast nationally. More than 2000 filled the high school auditorium to hear him.

Ickes asserted that Dewey claims to be for the Marshall Plan and aid to Europe, but "has on his team" every isolationist, ever reactionary, that he can find on the Republican side of the 80th Congress.

Devoting considerable attention to the issue of public power, Ickes asserted, "Under Dewey we expect the power companies to insist that the government build the transmission lines to their convenient substations which will then carry the power at a high cost to the people who have paid for the dam, the powerhouse and the transmission lines."

Dewey Train Engine Fails

ALBANY, N. Y., Oct. 23. (AP) Gov. Thomas E. Dewey was stranded on a stalled train for two hours last night.

The Republican Presidential nominee was aboard the second section of the New York Central's Wolverine when it pulled up lame about 40 miles south of Albany. He was on his way home from New York.

"Engine failure," the Central explained. A yard engine pulled the train from Germantown to Hudson and a freight locomotive was brought from Poughkeepsie to finish the trip to Albany.

At Beacon, N. Y., on Oct. 13, Dewey's "Victory Special" backed up slowly toward a crowd gathered at the rear platform to greet the candidate.
