May Draw

Aid to Aged

By HASKIN

Q. May a woman receive an

allotment under Social Security when her husband becomes eli-

gible even if she is not an American citizen? A. H.

A. The fact that a woman is

not a citizen of the United States does not bar her from re-

ceiving her allotment under the annuity provisions of the Social

Security Act when her husband at the age of 65 becomes eligible for it. She must also be 65 years of age to be eligible.

Q. When were diamonds discovered at Murfreesboro, Ark.?

A. The site of the diamond

mine was on land owned by

John M. Huddleston, who was

puzzled because crops would not grow there. Tramping over it one day in 1906 he picked uptwo crystals, which later were

identified as diamonds. Huddle-ston sold his land to a mining corporation for \$38,000. The dia-

monds recovered from this mine are brilliant and of excellent

luster but many are small and

industrial uses. However, a few stones have been valuable. One

of them weighed over 40 carats and was valued at \$8000.

Q. What part of the world was first called "America"?

A. The name "America" was first applied to Central Brazil in

honor of Amerigo Vespucci, who claimed its discovery. "America"

was first applied to the whole known western world by Mer-

A. In Bartlett's 'Familiar Quotations' it is described as "A popular saying, like 'Be good, and you will be happy,' or 'Virtue is its own reward,' that, like Topsy, just 'growed.' From the earliest times it has been

the popular tendency to call this or that cardinal virtue, or

bright and shining excellence, a jewel, by way of emphasis."

Q. How long was the regular army when the Civil War began and how many of its officers left to join the Confederacy?—L. H. D.

A. The regular army num-bered 16,367 men. Records show

that 313 officers left the army to join the Confederacy.

Mike, it seems, had gone directly from baby to hood, and by the time he was 25, his hand, down to and including the trigger finger, had become skilled in finding pay rolls that weren't lost. He had moved uptown to a fancy apartment in the East 50's, sported a big Peerless touring car and had quite a reputation for getting away with murder. And though his feelings for his mother were something less than filial, he continuel to pay her rent; and on his quick monthly visits downtown he would generally slip her a few

that patients who are afraid of operations, suffer far more than those who take it in their stride. Dr. Edmund Jacobson, leading

authority in relaxation, finds bodily aches and pains decrease

markedly when one relaxes and ceases to worry. Another au-thority, Dr. David Harold Fink,
