Many Plants May Be Kin of Shamrock

By HASKIN A reader can get the answer to any question of fact by writing the Long Beach Press Telegram, Information Bureau, 316 Eye St. N. E.. Washington 2. D. C. Flease conference three (3) cents for return postage.

Q. What plant is the true shamrock? A. P. R.
A. There is considerable dis-A. There is considerable dispute about the true shamrock. Some Irishmen consider the plant known as wood sorrel, which bears the scientific name Oxalis acetosella, as the true shamrock. Others believe it to be the white clover, Trifolium repens. While these two are the ones most popularly regarded as the real shamrock, claims have also been advanced for aned as the real snamrock, claims have also been advanced for another clover, Trifolium minus and for the black medic, Medicago lupulinae, The Irish botanists Keough and Theilkeild favor the white clover.

Q. How does one become a Mason? C. S. D.
A. In order to become a member of a Masonic fraternity, the

person in question should ask a Mason in good standing to obtain for him an invitation to join the fellowship. Character, business probity, adaptability, and many other qualities of the candidate are carefully scrutinized before he is considered eligible. Q. When any by whom was Unity founded? B. B. S. A. Unity was founded over 50 years ago in Kansas City, Mo, by a wife and husband named Myrtle and Charles Fillmore. Suffering from tuberculosis, Mrs. Fillmore suddenly came to believe that there was a supreme power which could conquer all 'negative or destructive agen-cies." She cured herself of her ailment and Mr. Fillmore recovered from a diseased hip.

CHJ-Land of Free. Q. V. LEWS-Music, News. "milli-VOE-Army Platters," J. L. Q. What is meant by the title "millionth map of the world?"

A. It means that on this particular map 1 inch represents 1 million inches in nature, or 15.8 miles. When completed, the "millionth map" will be allowed by the standard of the map of the facade of the "millionth map" will be almost as large as the facade of the Library of Congress, according to one writer. It took 12 men at the American Geographical Society 20 years to do just the Hispanic American part.

Q. Where is the new "pole of cold' reported to have been dis-covered by Russians? J. D. A. According to reports from Moscow, geographers have found the "world pole of cold" —a spot where the temperature had fallen to a record of 94 degrees below zero—in a hitherto unexplored mountain section of Siberia. The place lies approximately 63 degrees north and 143 degrees east.
