If youthful Madisonians do have candy after dinner in the evening, a good job of toothbrushing will aid materially in helping reduce dental caries or cavities.

In fact, lack of care is another great cause of dental disease.

should use simple, small, straight two-row tooth brushes.

Remember that it is not the toothpaste, but rather the use of the right toothbrush that helps prevent costly dental repair.

Another cause of dental disease is improper diet.

To give teeth exercise and to help build strong teeth, urge growing children to eat many crunchy foods—raw carrots, celery, lettuce, hard rolls, toast, and apples, to name a few.

HAS RELIGION KEPT PACE WITH THE TIMES?

"All conditions and requisites of the past unfitted and inadequate for the present time, are undergoing radical reform. It is evident, therefore, that counterfeit and spurious religious teaching, anticulated forms of belief and ancestration in that one which are at variate with the foundation of divine reality must also pass away and be reformed. Just as the thoughts and hypotheses of past are fruitless to human invention are obsolets and harren of product in religion. It is our duty in this radiant century to investigate the essentials of divine religion, seek the realities underlying the oneness of the world of humanity and discover the source of fellowship and agreement which will unite mankind in the heavenly bond of love."
