California Climate Is **Rated Tops**

BY HASKIN

Q. What localities in the United States have the most moderate climate? —F. R. S. A. The Weather Bureau says A. The Weather Bureau says that localities having a medium climate throughout the year are found along the coast of California or even farther north, along the coast of Washington and Oregon. Similar conditions obtain in the moderate elevations of the Southeastern states, actably in the western portions notably in the western portions of the Carolinas, central Georgia, and northern portions of Alabama and Mississippi.

Q. Who wrote the lines "I expect to pass through this world but once. Any good therefore that I can do, or any kindness that I can show to any fellow-creature let me do it now. Let me not defer or neglect it, for I shall not pass this way again?"—M. H. S.

The first 3-cent postage A. The first 3-cent postage stamp in the United States was discontinued on October 1, 1883, when the letter rate was changed to 2 cents. Three-cent stamps were used again from November 1918 until June 30, 1920. During that period the extra cent was used for war purposes. The 3-cent rate was not resumed until August 6, 1932. 1932.

Q. Is Russia the largest country on earth?—L. D. D.
A. The Soviet Union is the largest single country on earth, its area of over 8 million square miles being almost as great as that of the entire North American continent. However, seven-eighths of the land is virtually useless for cultivation.
