Q. Does cold weather affect the running of a clock? V. A. D. Weather Bureau's advance publicity blurbs.

There were a lot of things wrong with it. For one thing it opened on a Sunday—a clear sign of mismanagement by someone. Who cares if it snows in New York on a Sunday? Everybody is already at home and up to his armpits in, the Sunday newspapers. A. Temperature affects clocks unless they are specially pensated for temperature changes. Most clocks tend to gain in cold weather and to lose in hot weather.

Q. When were bricks first used? M. T. R.
A. Over 5000 years ago man made sun dried bricks of clay from river beds and used them from river beds and used them the sunday at home and up to his armpits in the Sunday newspapers.
And it was too well advertised. It lacked punch, drama, surprise.
