VOICE OF HOPE FOR 1949

Year Like Pandora's Box; Could Hold Good for All

By HAL BOYLE

NEW YORK. UP Let's open Pandora's box all over again. Good night!

Oh, oh—that's wrong. I mean "Happy New Year! I mean it really? Welcome—1949!

And why not? Can't you open Pandora's box and figure this year—something's in here good for mankind? Why not give it a try? Light hasn't really hurt anybody in our world since—well, since way back last Saturday.

Last Saturday, of course, was the morning after. Is there too, too much to repent about the eve before? So you made a double-dog fool of yourself the last night of 1948? Will you ever have the same old same company in the same way again?

Let us hope not. The Lord has his own mysterious way of removing elderly innocent bystanders from the scenes of our recent crimes. Our crimes against sensible society and our own conscience, I mean.

So today you are unique. You face life with a sense of guilt. But there the day stretches ahead of you—bright, fresh and new, and eager to record your repentant scrawl. Nobility in history saw the same day the same way before. Nobody will again.

But as the day wears you are likely to see that other people are back at work, too. So, whether you work for them or they work for you, you appreciate that life is pretty much a fellow-hanger against the dark—and you feel that life is going to go on.

Darned, as a matter of fact, if you don't happen to think that you, too, have some importance in your effort to do your bit. You know it isn't probably going to

sway mankind—but at least you didn't hide out with a penny cold. Life gains a thin rosy edge of virtue.

Well, if you have got that far, boss or hired hand, you are already a victim of Pandora's golden modern box. And that is a kind of version of the Golden Rule.

Because, what with modern medical advances, people don't pay so much attention to the diseases that La Belle Pandora used to let loose on a befuddled world with a fearless hand looking for 1949 people are having an eye open for blessings. They want hope more than they cry for help.

They are looking for something better. They want to eat high on the hog—and who's there to say there isn't room for everybody to gnaw?

No, sir, it always was a matter of propaganda what came out of Pandora's box. This year let's accept the idea it was good—and good for us all. There's plenty of everything for everybody. And everything is in your mind. If I'm wrong, call me a liar in 1950. But as for 1949—it's only here once. Let's live it—and let Pandora shut the gold-darned lid! We won't go this way again. No, none of us.

WHAT OTHERS ARE SAYING

THE most basic desire of life is happiness. And happiness becomes a reality only when you succeed in making steady progress. But to make steady progress, three elements are necessary: The first is ability. The second is hard work. The third is to live in a country where you are free to reap the rewards of your enterprise. —Lee E. Jackson, president, Firestone Tire and Rubber Co.

FIFTY per cent of sick persons need prayer more than pills, aspiration more than medicine, meditation more than prescription. —E. Stanley Jones, missionary.

THE farmers of America are in a position economically and politically to take this country the middle way, away from fascism and communism. —Perry L. Green, president, Ohio Farm Bureau Federation.

I DON'T see how a family can be a true family without family council meetings, and the important thing is not that each shall try to have his own way, but that talking and working together, they create a new way. —Dr. Regina H. Wescott, family consultant.

The take-home pay after taxes being too small, Jolson quits radio. It isn't raining rain to Al, it's raining only 10 per cent of the gross.

The Census Bureau now reckons the average family in the U. S. at 3.6 persons. For the wife's relative who isn't all there, .6 seems high.

Overleeping on these dark mornings does Dora no good, sending her forth half-fed and healthy on only one side of the face.

THE "TIMID PUBLIC" THERE IS money in America these days. The banks, the insurance companies, the strong boxes are bulging with it.

But business—especially new enterprise—finds it isn't easy to borrow money. In some cases issues of first-rate securities have met a surprisingly cool reception.

The truth is that the capitalistic system is getting very few infusions of new capital. Of the \$18,800,000,000 invested in new plant and equipment in the United States this year (the figures are from the SEC) only \$4,200,000,000 was borrowed from the public. The rest came out of "pockets," so-called. Or so mis-called.—Omaha World-Herald.

UNRESTRICTED GLARE from motor vehicle headlights has become a glittering harbinger of evil for millions of motorists and pedestrians on the highways. Research by the American Automobile Association and other protective agencies designate these insidious "death rays" Enemy No. 1 in night driving, as at least an estimated 60 per cent of car operators fail to dim lamps when encountering approaching traffic.—New York Times.
