Q. Did the Russians ever have settlement in California? D.

The Russians landed at Bodega Bay in Carfornia in 1812 and established several settlements as well as fortifications on Bodega Bay and at Fort Ross, some miles north. They withdrew in 1841.

Q. If an alien woman marries a United States citizen who is in the armed forces, does she thereby become a citizen? S.

A. Aliens who marry United States citizens, whether they are in the armed forces or not, do not thereby acquire United States citizenship.

Q. In Duplicate Bridge, what do the terms "Howell Game" and "Mitchell Game" mean?

A. In Duplicate Bridge games the terms Howell and Mitchell the terms Howell and Mitchell refer to systems of moving from table to table. In the Mitchell game one way of the room is arbitrarily designated as the north-south direction. When the play of the original set of trays at each table has been completed, there is a signal to progress. The north-south pairs remain stationary; the east-west pairs move to the next higher numbered table. The trays are moved to the next lower numbered table. The Howell movement is one in movement is one in which each pair plays one set of trays against each other pair.

Q. How many earthquakes have there been in 1948? G.

A. In 1948 there have been 125 earthquakes of sufficient strength to record themselves on selsmograph instruments so that they could be immediately leasted. So your conscious mind, directed by your will, acquired the habit of patience, sympathy, intolerance, greed, courage, cowardice, honesty, treachery, selfishness or any other quality, and then your will is no longer master.

Q. Under the proposed world calendar would holidays always fall on the same day of the

week? P. R. L.

A. In the proposed world calendar month dates always fall on the same week days. Holidays would be fixed and would always fall on the same day of the week. The year would be divided into 52 weeks with the 365th day forming a year-end world holiday. The leap year world holiday would follow June 30 in leap years.
