CHICAGO —(U.P.) —Color television will not be available for widespread use for at least eight years, accordance to the color of the col

ing to Prof. Arthur B. Bron-well of Northwestern university's technological institute.
Two systems of color television have been developed, but are too expensive for public sale, he said.

### Love Does It---U. S. to Get Famed Austrian Soprano

NEW YORK- (U.P.) - The United States is about to acquire by marriage the prima donna who would not go there for money.

She is Alice Ostrowsky youngest, best looking, and rated among the most promising of the current crop of the famed Vienna state opera company.

During her two-year rise to popularity in Vienna's tough competition, the 29tough competition, the 29-year-old Hungarian - born mezzo-soprano has turned down every suggestion from her well wishers that she seek a career in the more lucrative United States.

But now she is packing her bags. Her husband, whom she married in Vienna, is Major Charles Cawthon, Murfreesboro, Tenn. He has orders to report for duty at the Presidio in San Fran-

cisco.
Faced with continuing her Vienna career or a separa-tion, Miss Ostrowsky chose love and family, which in-cludes a six-months old daughter. Americans, used to think-

ing of prima donnas tempermental terms, will be meeting something new and different in Miss Ostrow-

sky.
When critics rave in praise, she blushes. When an admirer tells her she was terrific as Carmen, she praises the acoustics of the opera house.

But Vienna music critics are no professional back-slappers. In a field noted for its cynics they have a repu-ta of being among the tough-

est in Europe.

For her role of Santuzza, the feminine lead in Cavalleria Rusticana, Miss Ostrowsky was described in the next day's newspaper clip-pings as, "magnificent," a term not lightly kicked around in the Vienna musical world even by friends.

village here. Dr. Maurice Robbins, research director of the Massachusetts Archeological Society, said the mummy was that of a two-orthree-year-old child. Wrapped in elm bark, it was preserved by copper salts formed from hun-dreds of copper beads buried with
