Television and Education

IF TELEVISION is in its in mathematics and recall the few fancy, education in television must be described as hardly out of the delivery room. Nevertheless, the first hesitant steps toward solid programming are already being taken and we may be on the threshold of a new advance in educational techniques which will some time be regarded as the beginning of an

One radio executive sees television as the eye of the tele-scope, of the laboratory micro-scope, in the steel mill, in the halls of government, in the ship-yards and the factories, vitalizing the world of which our children are trying to learn. know how seldom the teaching genius comes along, and how limited his circle of direct personal influence has been heretofore. Is it too much to hope that sometime not too long dis-tant that genius, the occasional tant that genius, the occasional cant happenings.

very inspiring teacher who is The most important thing remembered by students that happened in 1948, however, very inspiring teacher who is throughout their lives, will convery his inspiration through the television camera and network into many classrooms instead of one? We are thinking, in the field of English and literature, instance, of Briggs, Copeland. Kittredge, Phelps and others; now range through sci-

great teachers and how their audience was limited to a few, masters.

although no one can yet fore-see where television will go in education, our leading admin-istrators have already accepted the new instrument.—New York

WHO'LL IT BE?

THE TEN BEST DRESSED P. L. A. women of the year have already been trotted out. Mr. Truman is hailed as the man of the year. And, of course, there aic the ten greatest news stories and the ten most signifi-

may not be known for 40, 50 or 60 years. It has, however, probably been recorded already in the vital statistics as the birth of some boy or girl who will some day lead the nation or shake

while throughout the country well-meaning lesser teachers, not similarly endowed as to mind, energy, training, personality or enthusiasm, were doing their limited best but falling far short of the performance of the Although no one can yet fore-

> Q. What was the title of the book on democracy that Franklin D. Roosevelt once reviewed?

A. "Jefferson and Hamilton:
The Struggle for Democracy in
America" was the title of the
book by Claude G, Bowers reviewed by Franklin D. Roosevelt in the New York Evening
World of Dec. 3, 1925.

Q. When did the wall calendar with advertising with advertising first become popular in this country? M. A. R. A. The modern advertising wall calendar goes back to the

1880's when two college friends, Edmond B. Osborne and Thomas Kittredge, Phelps and s; now range through sciart, music, philosophy, shakers.—Chicago Daily News, Edmond B. Osborne and Thomas D. Here is Story of Rodent That Became Pied Piper

By HAL BOYLE

NEW YORK, 4P Once upon a grabbed the reed. He blew upon it and wished: "Get going, Mac."

The leprechaun hesitated a smart Alec rat called Sharpy. second and then floated up a Yes, a real four-legged rat. moonbeam and disappeared, his One night as Sharpy was nosing around the nursery of the home in which he was a nonface still surprised.

"Just a minute, Sharpy. What's next?" Sharpy ran down to the basement and told his family their paying guest he came upon a strange sight.

A little old man only half-a-foot high sat on a footstool bathed in moonbeams. He was troubles were over. He had a magic reed.

"This I gotta see," said his old man, who knew Sharpy was an awful liar.

swful liar.

So they crept into the cook's bedroom. Sharpy piped his tune and wished for her to get up and put some cheese on the kitchen floor. She did. The cat came prowling near. Sharpy blew again and wished: "Stand on your head."

It went the cat on its head. Up went the cat on its headworld, Mac."
"Of course I am," said the little man complacently. "I'm a leprechaun—an Irish fairy.
"I heard a baby crying in this crib, and I thought it would put the property than a said."

living. Do we want that?"
Sharpy hesitated. But the lust for power was strong in him. He raised the reed to blow and stayed there.
"My boy," said Sharpy's father, "I always said you'd be a great rat. I'm proud of you."
Overnight Sharpy's dream of power great greater. again. Instantly the wise old rat snatched the magic instrument from his paws, broke it in half, and threw it on the ground. That broke the spell. The

Overnight Sharpy's dream of power grew greater.

"Why not." he said, "use this reed to destroy all the enemies of our race? Why should rats have to hide all their lives?"

He decided—to start with—to get rid of all the cats, dogs and people in New York City. Early the next morning he began the great rat crusade. great rat crusade

have to do it."
"Anything?" asked Sharpy.
"Yes, anything," said Mac, the leprechaun.
Sharpy immediately belted the fairy in the stomach and Sharply transfixed a taxi driv-

er with his magic music, and

reached

-King George VI.

Yes. Five hundred married women and 500 unmarried were And they did. Out from the houses, shops and skyscrapers poured cats, dogs and people, capering together in the streets behind Sharpy. Brokers forsook asked by Syracuse U. psychologist, Harry Hepner, to list their main problems. The married averaged 16 problems, the unmarried 18. Curiously, the married worried more about com-Bowery.

The line grew and grew as the parade neared the Battery. All the city's rats came out and jumped in taxicabs, too. The ride was free, as the dazed drivers forgot to turn on the fare meters.

"Atta boy, Sharpy," chortled the rats. ing to poverty than the unmarried—probably had more re-sponsibilities. The married also had more problems with rela-tives, which is to be expected because they had two sets to

"Blow harder, Sharpy," they yelled. "Some of the people on the side streets are getting Answer to Question No. 2 More alike in some broad habits such as language, man-

ners, even opinions. Boys in New York or boys in New Orleans would resemble each other more in these respects than the New York boys would resemble the New Orleans boys. But, within each group, similar education usually makes boys (or girls) more unlike. Psychologist E. L. Thorndike practiced two groups on the same arithmetic prob-lems—one group slow, one fast at figures. Soon the fast ones were farther ahead of the slows Sharpy.

"If you get rid of all the people, who will rule the world?"
Cautioned the wise old rat.

"Why we'll have—the rats.
And do you know what that means? It means that in time rats will become tame—like people?" We'll have to work for " than at the beginning. Common environment makes people more unlike, in many ways because each can express better his individual heredity.

Answer to Question No. 3

Increased, I think. Grandpa worried about his calves, pigs, horses and, occasionally, about his children. Now grandson has to worry about his children all the time. Their roller skates, sweaters, vitamins, getting in before morning, or getting killed joy-riding. He worries about his radio going out. radiator freez- "Scienting, the war in China which details.
