## **Austrian Was Author** of 'Bambi'

By HASKIN

A reader can get the answer to any question of fact by writing the Long Beach Press-Telegram, information Euraus, 316 Kye St. N. Z., Washington Z. D. C. Please enclose three (3) cents for return postage.

Q. IN WHAT language was the story "Bambi" originally written? E. E.

A. "Bambi" by Felix Salten, the Austrian author, was origi-nally written in German.

Q. What peoples are included in the term "Gentile" in the Bible? F. B.

A. The designation "Gentiles" varies in application but in the Old and New Testaments usually includes all nations of the world other than the Jews-4Isaiah 49:6; Romans 2:14; 3:29). The Revisions very often substitute for "Gentiles" the word "nations." At times "Gentiles" is a synonym sages it stands in contrast to "Christians." The Hebrews call the "Gentiles" by the general name of Goyim, which signified the nation that have not received the faith, or law of God.

Q. Has the height of the earth's atmosphere been definitely fixed? E. McE.

A. The exact height has not been established. The atmosphere is believed to reach several hundred miles above the surface of the earth. The slice of at-mosphere in which we live is barely 1-100 the thickness of the atmosphere as a whole.

Q. What is the fastest time recorded for firing five shots from a double-action revolver, either professional or amateur?

A. The United States Revolver Association says that McGivern of Montana fired five shots from the Smith & Wesson .38 Special, with an electric timer certified by the National Bureau of Standards, in 9-20th of a secof Standards, in 3-20th of a sec-ond. This was the fastest of many strings reported by Col. D. B. Wesson in his book, "Burning Powder."
